

Chassis

Container chassis come in sizes tailored to the containers they carry although some chassis are 'adjustable' for different containers. TRAC Intermodal™ chassis are manufactured for the special rigors of the leasing industry. We use hi-tensile steel to build the frames, and zinc-enriched paint coating systems to protect against corrosion. With low-cost long useful life as a major objective, our designs combine a 'no-frills' approach for simplicity, with selected components such as sealed beam lighting, heavy-duty landing gear, specially coated brake shoes and locking mechanisms that better withstand damage while offering ease of maintenance. During manufacture, we regularly attend production with trained factory inspectors to help assure quality control. While in service, TRAC Intermodal chassis are maintained and repaired under supervision of our depot and pool technical staff to assure safe and reliable equipment compliant with all relevant regulatory criteria including Federal and local regulations.

20' Slider Chassis

Description	Metric	U.S.
Overall length	7.19 m	23'6"
Overall Width	2.44 m	8'
Carrying capacity (container size)	6.10 m	20'
Carrying capacity (weight rating)	30,481 kg	67,200 lbs.
Number of axles		2
Number of tires		8

40' Chassis

Description	Metric	U.S.
Overall length	12.40 m	40'8"
Overall Width	2.44 m	8'
Carrying capacity (container size)	12.19 m	40'
Carrying capacity (weight rating)	30,481 kg	67,200 lbs.
Number of axles		2
Number of tires		8

40' - 45' Extendible Chassis

Description	Metric	U.S.
Overall length	13.90 m	45'6"
Overall Width	2.44 m	8'
Carrying capacity (container size)	13.72 m	45'
Carrying capacity (weight rating)	26,399 kg	58,200 lbs.
Number of axles		2
Number of tires		8

40' - 53' Extendible Chassis

Description	Metric	U.S.
Overall length	16.30 m	53'5"
Overall Width	2.59 m	8'5"
Carrying capacity (container size)	16.31 m	53'6"
Carrying capacity (weight rating)	33,636 kg	74,000 lbs.
Number of axles		3
Number of tires		12

53' Chassis

Description	Metric	U.S.
Overall length	16.31 m	53'6"
Overall Width	2.44 m	8'
Carrying capacity (container size)	16.15 m	53'
Carrying capacity (weight rating)	29,484 kg	65,000 lbs.
Number of axles		2
Number of tires		8

Specialized Equipment

TRAC Intermodal's active fleet consists of approximately 245,000 chassis and containers.

23' Tri-Axle Chassis

Description	Metric	U.S.
Overall length	7.19 m	33'
Overall Width	2.44 m	8'
Carrying capacity (container size)	6.10 m	20'
Carrying capacity (weight rating)	30,481 kg	65,000 lbs.
Number of axles		3
Number of tires		12

40' Tridem Chassis

Description	Metric	U.S.
Overall length	12.40 m	40'8"
Overall Width	2.44 m	8'
Carrying capacity (container size)	12.19 m	40'
Carrying capacity (weight rating)	33,636 kg	74,000 lbs.
Number of axles		3
Number of tires		12

53' Steel D/V Container

external dimensions	Metric	U.S.
Overall length	16.154 m	53'
Overall Width	2.591 m	8'6"
Overall Height	2.901 m	9'6"
Carrying capacity	111.7 cu. Mtrs	3,943 cu.ft.
Cargo Carrying Weight	25,810 kgs	59,910 lbs
