## *TRAC Connect Street Interchange*

# Login

- Navigate to [www.tracconnect.com](http://www.tracconnect.com) and login to the website.

The screenshot displays the TRAC Connect website interface. At the top left is the TRAC CONNECT logo. A navigation menu includes Home, Locations, FAQ, Documents, and Contact Us. On the right, a login form is highlighted with a red oval, containing fields for User Name (mcuser) and Password, and a Log In button. Below the navigation menu, the 'About TRAC Connect' section features three images: a TRAC trailer, a TRAC truck, and a TRAC terminal. A text block below the images states: 'TRAC Connect™ is the latest product offering from TRAC Intermodal, specifically designed to provide chassis on a short and midterm basis to the carriers who manage the inland ISO container supply chain.'

# Select From Menu Items

- Once logged in, click on “Manage Street Interchanges” from menu item under “Motor Carrier”.

The screenshot shows the TRAC CONNECT web application interface. The top navigation bar includes links for Home, Locations, FAQ, Documents, Contact Us, Create Company, My Company, Motor Carrier, and Activity. The 'Motor Carrier' menu item is circled in red, and the 'Manage Street Interchanges' sub-item is highlighted. The main content area features an 'About TRAC Connect' section with three images: a trailer, a truck, and a warehouse. Below the images is a 'Getting Started' button. The left sidebar contains a list of announcements and news items.

**TRAC Connect™** is the latest product offering from **TRAC Intermodal**, specifically designed to provide chassis on a short and midterm basis to the carriers who manage the inland ISO container supply chain.

**TRAC Connect™** provides capacity, flexibility and pooling efficiency when and where you need it most.

**Getting Started**

# Add New Street Interchange

- Click on “Add New Street Interchange” link to add street interchange data into the system.

The screenshot displays the TRAC CONNECT web application interface. At the top, the TRAC CONNECT logo is visible. Below the logo, there is a navigation menu with links for Home, Locations, FAQ, Documents, Contact Us, Create Company, My Company, and Motor Carrier. The main content area is titled "Manage Street Interchanges" and includes a search criteria section with buttons for Fit Grid, Expand Grid, Show Filters, and Clear Filters. A table lists existing street interchanges with columns for Status, Interchange Datetime, and Steamship. A red circle highlights the "Add New Street Interchange" link. A modal window titled "Add New Street Interchange" is open, showing a form with the following fields: Interchange Date\*, Interchange Time\*, SSL SCAC (dropdown), Chassis ID\*, Location\* (dropdown), Chassis/Container Status\* (dropdown), Container ID\*, Reference Number\*, Motor Carrier SCAC\* (dropdown), and Comments. A checkbox at the bottom of the form is checked, and a disclaimer text is visible below it. The form has "Save" and "Cancel" buttons at the bottom right. The footer of the page shows "Page size: 70" and "3 items in 1 pages".

Status	Interchange Datetime	Steamship
PENDING	01/19/2015 09:00	APL [APL]
PENDING	01/17/2015 07:00	CMA CGM
PENDING	01/19/2015 17:00	CMA CGM

Inter Status	Container ID	Refere
	TGHU445453	REF
	CMAU901643	TEST
	TGHU499866	ID150

# Add New Street Interchange

- Enter all the data and click on “Save” button to save the data.
- If required data is not entered, system will not save the data and appropriate message will be displayed.

Note: Location list will be populated once valid chassis id is entered.

# Search For Existing Data

- Lookup for specific data that was previously entered using “Search Criteria” section.
- Once search criteria is entered, click on search button. Data will be displayed in search results section.
- The “Clear” button can be used to clear what was entered previously.

The screenshot displays the TRAC CONNECT web application interface. At the top, the TRAC logo is visible on the left, and user information (MCUSER, My Account, Logout) is on the right. A navigation menu includes Home, Locations, FAQ, Documents, Contact Us, Create Company, My Company, Motor Carrier, and Activity. The main section is titled "Manage Street Interchanges" and contains a "Search Criteria" section with the following fields:

- Steamship Line: (Empty)
- Chassis IDs: METZ458115
- Container IDs: (Empty)
- Interchange Date Range: From: 1/1/2015 00:00, To: (Empty)
- Process-Status: (Dropdown menu)

Below the search criteria are buttons for "Fit Grid", "Expand Grid", "Show Filters", and "Clear Filters". A "Search" button and a "Clear" button are also present. A large red arrow points from the search criteria fields to the search results table below.

The search results table is titled "Add New Street Interchange" and includes a "Refresh" button. The table has the following columns: Status, Interchange Datetime, Steamship Line, Chassis Pool, Chassis ID, Container Status, Container ID, Reference Number, and Motor Carrier. The table contains three rows of data:

Status	Interchange Datetime	Steamship Line	Chassis Pool	Chassis ID	Container Status	Container ID	Reference Number	Motor Carrier
PENDING	01/19/2015 09:00	APL [APLU]	CMA Chicago Pool	TAXI 077	Full	TGHU445453	REF	RTS Hold Eastern I
PENDING	01/19/2015 17:00	CMA CGM (America)			Full	TGHU499866	ID1504971	RTS Hold Eastern I
PENDING	01/17/2015 07:00	CMA CGM (America) [CMD			Full	CMAU901643	TEST	RTS Hold Eastern I

A large red arrow points from the search criteria fields to the search results table, with the text "Data you entered will be displayed in search results section" written inside the arrow.

# Filter Search Results Further

- Using the filter (as shown below), search results can be short listed further.

# Search - Shipping Line

- To search based on shipping line, click on the “+” sign to expand the section to search, select the lines to search and click “OK” button.

The screenshot shows the 'Manage Street Interchanges' section of the TRAC Intermodal software. The 'Search Criteria' section is expanded to show 'Steamship Line'. A 'Select Shipping Lines' dialog box is open, displaying a list of shipping lines on the left and a list of selected shipping lines on the right. The dialog box has 'OK' and 'Cancel' buttons at the bottom right.

Annotations in the image include:

- A red arrow pointing to the '+' sign in the 'Search Criteria' section.
- A blue arrow pointing to the list of shipping lines in the dialog box, labeled 'Section to select the listed shipping lines'.
- A blue arrow pointing to the selection buttons (yellow >, blue >>, blue <<, and grey <) in the dialog box, labeled 'To transfer one shipping lines at a time'.
- A red arrow pointing to the selection buttons, labeled 'To transfer all the shipping lines between left and right sections'.
- A blue arrow pointing to the list of selected shipping lines in the dialog box, labeled 'List of shipping lines selected to search on.'.

# Search – Chassis or Container IDs

- To search based on chassis id or container id enter them in their respective sections.
- To enter multiple values, separate them using comma

# Search - Interchange Date Range

- To search based on interchange date range, date can be entered directly or use the calendar and time picker tools.

The screenshot displays a web application interface with a navigation bar at the top containing links: Contact Us, Create Company, My Company, Motor Carrier, and Activity. Below the navigation bar, there is a search filter section titled 'Interchange Date Range' (highlighted in yellow). This section includes 'From:' and 'To:' input fields, each with a calendar icon. A 'Search' button is located to the right of these fields. A 'Time Picker' dialog is open, showing a grid of times from 00:00 to 23:30 in 30-minute increments. The time 08:00 is highlighted in orange. A 'Calendar' dialog is also open, showing a calendar for January 2015. Red arrows point from the 'Interchange Date Range' label to the 'From:' and 'To:' fields, and from the 'Time Picker' and 'Calendar' dialogs to their respective 'To:' fields. The background shows a table with columns for 'Container ID', 'Process-Status', and 'Chassis Pool'. The 'Chassis Pool' column lists 'CMA Chicago Po' and 'TRAC - Metro Po'. The 'Container ID' column lists 'TGHU44545', 'CMAU90164', and 'TGHU49986'. The 'Process-Status' column lists 'a) [CMDU]' and 'a) [CMDU]'.

# Search - Process Status

- Using the dropdown, select the “process status” to search on.
