Forward-looking statements

This report contains forward-looking statements within the meaning of the U.S. federal securities laws. Forward-looking statements include, without limitation, statements concerning plans, objectives, goals, projections, strategies, future events or performance, and underlying assumptions and other statements, which are not statements of historical facts. Forward looking statements may be identified by the use of words like “expect,” “anticipate,” “intend,” “forecast,” “outlook,” “will,” “may,” “might,” “potential,” “likely,” “target,” “plan,” “contemplate,” “seek,” “attempt,” “should,” “could,” “would” or expressions of similar meaning. Forward-looking statements reflect management’s good faith evaluation of information currently available and are based on its current expectations and assumptions regarding its business, the economy and other future conditions. Because forward-looking statements relate to the future, they are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict. Specific factors that may impact performance or other predictions of future actions have, in many but not all cases, been identified in connection with specific forward-looking statements. TRAC Intermodal LLC’s (the “Company,” “we” or “TRAC”) actual results may differ materially from those contemplated by the forward-looking statements. They are neither statements of historical fact nor guarantees or assurances of future performance. We caution you therefore against relying on any of these forward-looking statements.

Important factors that could cause actual results to differ materially from those in the forward-looking statements include economic, business, competitive, market and regulatory conditions and the following:

- the volume of world trade due to economic, political, or other factors;
- the demand for chassis;
- operating costs, including the cost of maintaining and repairing chassis, the cost of labor rates, the cost of parts and materials and the imposition of fees and other charges by the host locations at which the Company operates its chassis pools;
- increased regulatory costs;
- defaults by customers, which would decrease revenues and increase storage, collection, and recovery expenses and require payment to lenders sooner than anticipated;
- the inability of one or more customers to meet their obligations or decreased customer creditworthiness;
- the ability to mitigate any risk associated with efforts to enable shipping line customers to transition to the motor carrier model;
- the Company’s ability to be profitable;
- expansion of the Company’s business to provide logistics services and repair services through its service centers and mobile service units;
- the ability to mitigate any risk associated with the Company’s providing logistics services related to drayage;
- the decision by potential and existing customers to buy rather than lease chassis;
- the effect of the Company’s customers’ decision to shift to short-term leasing and transition to the motor carrier model on long-term leasing and direct finance leasing products;
- the impact of consolidation within the container shipping industry;
- the Company’s ability to compete successfully in the chassis leasing industry;

- the impact on the Company's business of losing exclusive rights to operate domestic chassis pools at certain railroad ramps;
- the impact of the credit markets on the worldwide demand for goods and, in turn, on the demand for chassis;
- the Company's substantial amount of indebtedness;
- the Company's ability to incur additional debt;
- the limitation on flexibility in operating the business arising from restrictions from debt agreements;
- the Company's ability to service its debt or to obtain additional financing;
- the Company's ability to re-lease chassis after their initial long-term lease;
- the impact of liens on equipment;
- changes in market price, availability, or transportation costs of equipment manufactured in China or Mexico;
- the Company's ability to integrate acquisitions and to realize the anticipated benefits of any such potential future acquisitions;
- a decrease in the availability of storage space for chassis and a resulting increase in depot costs;
- the Company's ability to maintain qualified personnel;
- strikes, work stoppages or slowdowns by draymen, truckers, longshoremen and railroad workers;
- the Company's ability to maintain its relationship with employees, and thereby avoid unionization efforts, labor shortages, disruptions or stoppages;
- the Company's ability or the ability of the Company's lessees to maintain sufficient insurance to cover losses that may occur to chassis;
- the Company's ability to estimate and maintain sufficient self-insurance for employee health care benefits;
- the extent of any payments under the Company's indemnification agreements;
- the impact of accidents or incidents or mismanagement of its fleet on the Company's reputation and financial results;
- the impact of recalls and other investigations;
- the impact of federal roadability rules and regulations for intermodal equipment providers ("IEP");
- the impact of environmental liability;
- the impact of litigation that is not covered by insurance;
- the failure or operational interruption of information technology systems required to conduct its business;
- the failure to adequately protect the Company's intellectual property rights;
- the willingness and ability of manufacturers or remanufacturers of the Company's equipment to honor warranties covering defects;

- the disclosure requirement exemptions we utilize based on the Company’s status as an “emerging growth company” under the JOBS Act
- the impact of inherent, potential, or perceived conflicts of interest created by relationships and transactions with members of management, members or shareholders and their respective affiliates;
- risks inherent in international operations, including uncertainty about the jurisdictions in which enforcement might be sought and the political, environmental, and economic stability of particular countries or regions;
- the impact on the Company’s earnings of increases in prevailing interest rates;
- counterparty risk arising in the Company’s hedging strategies;
- the impact of a new standard for lease accounting;
- adverse changes in U.S. tax rules;
- terrorist attacks, wars, uprisings or hostilities; and
- other risks described in the “Risk Factors” section of this report.

Please also refer to Item 1A. Risk Factors to Part II of this report. All of the above factors are difficult to predict, contain uncertainties that may materially affect actual results and may be beyond the Company’s control. New factors emerge from time to time and it is not possible for management to predict all such factors or to assess the effect of each such new factor on its business. Except to fulfill the Company’s obligations under the U.S. securities laws, we undertake no obligation to update any such statement to reflect events or circumstances after the date on which it is made.

Although the Company believes that assumptions underlying the forward-looking statements contained herein are reasonable, any of the assumptions could be inaccurate, and therefore any of these statements included herein may prove to be inaccurate. In light of the significant uncertainties inherent in the forward-looking statements included herein, the inclusion of such information should not be regarded as a representation by the Company or any other person that the results or conditions described in such statements or objectives and plans will be achieved.

TRAC Intermodal LLC and Subsidiaries

Notes to Consolidated Financial Statements – Unaudited (continued)

For the Three and Six Months Ended June 30, 2016 and 2015

(Dollars in Thousands, Except for Share Amounts)

1. Description of the Business and Basis of Presentation

The accompanying Consolidated Financial Statements of TRAC Intermodal LLC (the “Company,” “we,” “our” or “TRAC”) are unaudited and have been prepared pursuant to U.S. generally accepted accounting principles (“U.S. GAAP”) and the rules and regulations of the Securities and Exchange Commission (the “SEC”) for interim financial reporting and, in our opinion, reflect all adjustments, including normal recurring items, which are necessary to present fairly the results for interim periods. Operating results for the periods presented are not necessarily indicative of the results that may be expected for the entire year. Certain information and footnote disclosures normally included in consolidated financial statements prepared in accordance with U.S. GAAP have been omitted in accordance with the rules and regulations of the SEC; however, we believe that the disclosures are adequate to make information presented not misleading. These interim Consolidated Financial Statements should be read in conjunction with the Consolidated Financial Statements and notes thereto included in the Company’s annual report on Form 10-K for the year ended December 31, 2015 and with the information contained in other publicly-available filings with the SEC.

TRAC is an intermodal chassis solutions provider for domestic and international transportation companies in North America. Its principal business is providing marine and domestic chassis on both long and short-term leases or rental agreements to a diversified customer base including the world’s leading shipping lines, Class I railroads, major U.S. intermodal transportation companies and motor carriers. The Company and its subsidiaries conduct business principally in one industry, the leasing of intermodal transportation equipment. The Company has two reportable segments, the Marine Market segment and the Domestic Market segment. The Company purchases equipment directly from manufacturers and shipping lines as well as through lease agreements, some of which qualify as capital leases. Primarily all of the Company’s revenues and long-lived assets are attributable to the United States.

TRAC is a Delaware limited liability company that was formed on July 12, 2012 to facilitate the issuance of \$300,000 aggregate principal amount of 11% Senior Secured Notes (the “Notes”). The Company conducts its business through its 100% owned subsidiary, Interpool, Inc. (“Interpool”) and its consolidated subsidiaries. TRAC is ultimately owned by Seacastle Inc. (“Seacastle”). Seacastle is owned by private equity funds that are managed by an affiliate of Fortress Investment Group LLC (“Fortress”) and by employees of affiliates of Seacastle. Interpool was founded in 1968 as an operating lessor servicing the intermodal transportation equipment industry. Interpool was listed on The New York Stock Exchange as a public company in 1993 and was acquired and taken private by Seacastle in July 2007.

TRAC Intermodal LLC and Subsidiaries

Notes to Consolidated Financial Statements – Unaudited (continued)

For the Three and Six Months Ended June 30, 2016 and 2015

(Dollars in Thousands, Except for Share Amounts)

1. Description of the Business and Basis of Presentation (continued)

Interstar Acquisition

On February 29, 2016, TRAC Interstar LLC (“TRAC Interstar”), a newly formed, indirect wholly owned subsidiary of the Company, acquired certain assets and assumed certain liabilities of the Emergency Road Service Business of Interstar Mobile, LLC and Interstar North America, Inc. (collectively “Interstar”) for a purchase price of \$5,943 which includes a \$1,000 earn-out provision based on future operating performance. The Company recorded \$4,880 of goodwill related to the acquisition. The allocation of the purchase price accounting is preliminary as the Company has not yet completed its analysis of estimating the fair value of the assets and liabilities acquired. Interstar, located in Kentucky, is a leading provider of road service repair solutions for both the intermodal and commercial trucking industries. The new entity, TRAC Interstar, combines a dispatch center and one of the country’s largest managed vendor networks and will provide roadside repair services covering chassis, truck and trailer breakdowns 24 hours a day, 7 days a week, 365 days a year.

New Accounting Standards

Pending Adoption

In May 2014, the FASB issued authoritative guidance on accounting for *Revenue from Contracts with Customers (Topic 606)*: (“ASU 2014-09”). This update supersedes most of the current revenue recognition requirements. The core principle of the new guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. New disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers are also required. This guidance was effective for fiscal years and interim periods beginning after December 15, 2016 and early application was not permitted. However on July 9, 2015, the FASB decided to delay the effective date by one year. The deferral results in the new revenue standard being effective for fiscal years and interim periods beginning after December 15, 2017. The FASB also decided to allow early adoption but no earlier than the original effective date of December 15, 2016. Entities must adopt the new guidance using one of two retrospective application methods. The Company is currently evaluating the standard to determine the impact of its adoption on the Consolidated Financial Statements.

On February 25, 2016, the FASB issued authoritative guidance on accounting for *Leases (Topic 842)*: (“ASU 2016-02”). The FASB is issuing this update to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the balance sheet and disclosing key information about leasing arrangements. This guidance is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. Entities are required to adopt this guidance using a modified retrospective approach. The Company is currently evaluating the standard to determine the impact of its adoption on the Consolidated Financial Statements.

TRAC Intermodal LLC and Subsidiaries

Notes to Consolidated Financial Statements – Unaudited (continued)

For the Three and Six Months Ended June 30, 2016 and 2015

(Dollars in Thousands, Except for Share Amounts)

1. Description of the Business and Basis of Presentation (continued)

In March 2016, the FASB issued authoritative guidance on accounting for *Compensation—Stock Compensation (Topic 718) Improvements to Employee Share-Based Payment Accounting*: (“ASU 2016-09”). The amendments in this Update affect all entities that issue share-based payment awards to their employees. The new guidance requires excess tax benefits and tax deficiencies to be recorded in the income statement when the awards vest or are settled. In addition, cash flows related to excess tax benefits will no longer be separately classified as a financing activity apart from other income tax cash flows. The standard also allows entities to repurchase more of an employee’s shares for tax withholding purposes without triggering liability accounting, clarifies that all cash payments made on an employee’s behalf for withheld shares should be presented as a financing activity on the cash flow statement, and provides an accounting policy election to account for forfeitures as they occur. The amendments in this Update are effective for annual periods beginning after December 15, 2016, and interim periods within those annual periods. Early adoption is permitted. The Company is currently evaluating the standard to determine the impact of its adoption on the Consolidated Financial Statements.

No other new accounting pronouncements issued or effective during 2016 had or are expected to have a material impact on the Company’s Consolidated Financial Statements.

2. Leasing Activity

Equipment Leasing Revenue

The Company has non-cancelable operating leases for certain of its leasing equipment. At June 30, 2016, future minimum lease revenue under these agreements is estimated as follows:

2016	\$	34,093
2017		44,556
2018		11,903
2019		9,061
2020		4,043
Thereafter		816
	\$	<u>104,472</u>

TRAC Intermodal LLC and Subsidiaries

Notes to Consolidated Financial Statements – Unaudited (continued)

For the Three and Six Months Ended June 30, 2016 and 2015

(Dollars in Thousands, Except for Share Amounts)

2. Leasing Activity (continued)

Finance Revenue

At June 30, 2016, receivables under direct finance leases are collectible through 2022 as follows:

	Total Lease Receivables	Unearned Lease Income	Net Lease Receivables
2016	\$ 2,110	\$ 665	\$ 1,445
2017	10,825	623	10,202
2018	568	139	429
2019	186	32	154
2020	112	9	103
Thereafter	11	1	10
	<u>\$ 13,812</u>	<u>\$ 1,469</u>	<u>\$ 12,343</u>

As of December 31, 2015, the Company had total lease receivables, unearned lease income and net lease receivables of \$14,330, \$1,533 and \$12,797, respectively. As of June 30, 2016 and December 31, 2015, the Company had guaranteed and unguaranteed residual values for leasing equipment on direct finance leases of \$8,659 and \$8,673, respectively. The unguaranteed residual values are reflected in “Total Lease Receivables” above.

Historically, the Company has not experienced losses related to direct finance leases and does not project future uncollectible amounts related to the principal balances receivable. If customers were to default, the Company would seek to recover the equipment securing the lease, often at fair market values in excess of the remaining receivable.

3. Leasing Equipment

The following is a summary of leasing equipment recorded on the Consolidated Balance Sheets:

	June 30, 2016	December 31, 2015
Total leasing equipment	\$ 1,891,537	\$ 1,888,940
Less accumulated depreciation	(473,906)	(452,962)
Leasing equipment, net of accumulated depreciation	<u>\$ 1,417,631</u>	<u>\$ 1,435,978</u>

Leasing equipment includes assets recorded under capital leases of \$111,225 and \$121,817 with accumulated depreciation of \$38,422 and \$46,304 at June 30, 2016 and December 31, 2015, respectively.

TRAC Intermodal LLC and Subsidiaries

Notes to Consolidated Financial Statements – Unaudited (continued)

For the Three and Six Months Ended June 30, 2016 and 2015

(Dollars in Thousands, Except for Share Amounts)

3. Leasing Equipment (continued)

Impairment of Leasing Equipment

Impairment of leasing equipment amounted to \$5,974 and \$7,973 for the three and six months ended June 30, 2016, respectively. This compares to \$2,569 and \$4,002 for the three and six months ended June 30, 2015, respectively. The increase in impairment charges reflected during 2016 was primarily due to a greater number of end-of-life chassis impaired in 2016 versus 2015 and an increase in write-downs associated with axle sets determined to be unsuitable for the remanufacturing program. The above impairment charges are recorded in Impairment of leasing equipment in the Consolidated Statements of Operations.

4. Capitalized Software Development Costs

In 2014, the Company's Investment Committee approved the proposal to replace its principal operating and financial reporting systems, named "Project Helix" to provide more functional capabilities necessitated by new business requirements emerging from the industry shift to the motor carrier model. In accordance with ASC 350-40, *Internal-Use Software*, the Company is capitalizing costs during the application development stage of the project. At June 30, 2016 and December 31, 2015, capitalized software development costs totaled \$17,247 and \$9,675, respectively. These costs are included in Other assets in the Consolidated Balance Sheet. Once the software is substantially complete and ready for its intended use, capitalization will cease. Capitalized software costs will be amortized on a straight-line basis over seven years, the estimated useful life of the software.

5. Borrowings

The following is a summary of the Company's borrowings:

	<u>June 30,</u>		<u>December 31,</u>	
	<u>2016</u>		<u>2015</u>	
	<u>Debt</u>	<u>Debt</u>	<u>Debt</u>	<u>Debt</u>
	<u>Instrument</u>	<u>Issuance</u>	<u>Instrument</u>	<u>Issuance</u>
		<u>Cost</u>		<u>Costs</u>
Senior Secured 11% Notes	\$ 150,000	\$ 2,357	\$ 150,000	\$ 2,746
ABL Facility	918,000	14,148	867,000	15,585
Loans Payable CIMC	13,270	15	14,519	16
Capital lease obligations	43,947	3	49,160	3
Total debt	1,125,217	\$ 16,523	1,080,679	\$ 18,350
Less current maturities	(47,406)		(41,396)	
Long-term debt, less current maturities	\$ 1,077,811		\$ 1,039,283

Notes to Consolidated Financial Statements – Unaudited (continued)

For the Three and Six Months Ended June 30, 2016 and 2015

(Dollars in Thousands, Except for Share Amounts)

5. Borrowings (continued)

The Company's debt consisted of notes, loans and capital lease obligations payable in varying amounts through 2021, with a weighted-average interest rate of 5.37% for the year ended December 31, 2015. For the six months ended June 30, 2016 and 2015, the weighted-average interest rate was 4.32% and 5.78%, respectively. The weighted-average interest rates disclosed are calculated as "all-in" rates which include cash interest expense and amortization of agents' fees and deferred financing fees.

On January 14, 2016, the Company borrowed \$51,000 (the "Repurchase Amount") under the revolving credit facility of the ABL Facility to finance the repurchase and retirement of 62 shares, par value \$0.01 per share, of the common stock of Interpool, Inc. held by the Company, the sole stockholder of Interpool, Inc. Through a successive chain of dividends, the Repurchase Amount was received pro rata by the Company's indirect shareholders of record, including certain private equity funds that are managed by an affiliate of Fortress Investment Group LLC, employees of affiliates of Seacastle Inc. (the Company's indirect parent) and members of the Company's management.

In February 2016, the Company executed three interest rate swap agreements to convert variable rate debt based on LIBOR into a fixed rate per annum. See Note 6.

On March 7, 2016, the Company announced its proposed offering of \$485,000 aggregate principal amount of senior secured notes due 2021. Subsequently on March 22, 2016, the Company decided that due to current market conditions, it would not proceed with its proposed offering. As a result, during the six months ended June 30, 2016, the Company expensed approximately \$1,333 of accumulated costs related to the offering. These costs are included in Selling, general and administrative expenses in the Consolidated Statement of Operations.

(Dollars in Thousands, Except for Share Amounts)

6. Derivatives and Hedging Activities

In the normal course of business, the Company utilizes interest rate derivatives to manage its exposure to interest rate risks. Through the utilization of interest rate derivatives, the Company receives floating rate payments in exchange for fixed rate payments, effectively converting its floating rate debt to a fixed rate. If certain conditions are met, an interest rate derivative may be specifically designated as a cash flow hedge. The Company's interest rate derivatives qualify and have been designated as cash flow hedges. For the effective portion of the derivative gain or loss, changes in fair value are recorded in Accumulated other comprehensive loss and subsequently reclassified into earnings when the interest payments on the debt are recorded in earnings. The ineffective portion of the derivative gain or loss is recorded in Interest expense in the Consolidated Statements of Operations.

On January 10, 2013, the Company entered into an interest rate swap transaction with Deutsche Bank AG effectively converting \$300,000 of variable rate debt based upon LIBOR into a fixed rate instrument. The Company receives one month LIBOR with interest payable at a rate of 0.756% on the notional amount. At June 30, 2016, one month LIBOR was 0.465%. The agreement terminates on August 9, 2017.

On February 4, 2016, the Company executed two interest rate swap agreements with Deutsche Bank. One agreement effectively converts \$50,000 of variable rate debt based upon LIBOR into a fixed rate of 1.063% per annum. This agreement will terminate on December 10, 2020 at the same time the Company's ABL Facility terminates. Additionally, the Company executed a \$300,000 forward interest rate swap agreement. This agreement begins on August 9, 2017 when the Company's existing \$300,000 swap agreement ends. At that time, the Company will effectively convert \$300,000 of variable rate debt based upon LIBOR into a fixed rate of 1.2985%.

On February 5, 2016, the Company executed an interest rate swap with PNC Bank effectively converting \$100,000 of variable rate debt based upon LIBOR into a fixed rate of 1.1175%. The agreement will terminate December 10, 2020 at the same time the Company's ABL Facility terminates.

For the Three and Six Months Ended June 30, 2016 and 2015

(Dollars in Thousands, Except for Share Amounts)

6. Derivative and Hedging Activities (continued)

The Company's interest rate derivatives involve counterparty credit risk. As of June 30, 2016, the Company does not anticipate its counterparties will fail to meet their obligations. As of June 30, 2016, there were no credit risk related contingent features in the Company's derivative agreements. For additional disclosures related to derivative instruments see Notes 9 and 15.

The Company held the following interest rate derivative as of June 30, 2016:

Hedged Item	Notional Amount	Effective Date	Maturity Date	Floating Rate	Fixed Leg Interest Rate	Fair Value (a)
ABL Facility	\$ 300,000	Jan-2013	Aug-2017	1M LIBOR	0.756%	\$ (862)
ABL Facility	\$ 50,000	Feb-2016	Dec-2020	1M LIBOR	1.063%	\$ (631)
ABL Facility	\$ 100,000	Feb-2016	Dec-2020	1M LIBOR	1.1175%	\$ (1,485)
ABL Facility	\$ 300,000	Aug-2017	Dec-2020	1M LIBOR	1.2985%	\$ (3,774)

- (a) These interest rate derivatives are recorded in Accrued expenses and other liabilities in the Consolidated Balance Sheets.

At the dates indicated, the Company had in place total interest rate derivatives to fix floating interest rates on a portion of the borrowings under its debt facilities as summarized below:

	Total Current Notional Amount	Weighted-Average Fixed Leg Interest Rate	Weighted-Average Remaining Term
June 30, 2016	\$ 450,000	0.8704%	2.22 years
December 31, 2015	\$ 300,000	0.7560%	1.53 years

Notes to Consolidated Financial Statements – Unaudited (continued)

For the Three and Six Months Ended June 30, 2016 and 2015

(Dollars in Thousands, Except for Share Amounts)

7. Commitments and Contingencies

Chassis Purchase Commitments

The Company's chassis purchase commitments are related to commitments to refurbish and remanufacture chassis. At June 30, 2016, the Company had commitments totaling approximately \$35,254 with commitments totaling \$19,947, \$9,720 and \$5,587 for 2016, 2017 and 2018, respectively.

Tire Purchase Commitments

Contemporaneous with the Interstar acquisition, the Company committed to purchase from an affiliate of the acquired company 45,000 tires annually for a period of five years. Initial prices for tire types were agreed upon but are subject to purchase price adjustments based on certain changes in the cost of raw materials used in the manufacturing process. Based on the initial pricing and an estimate of the types of tires to be purchased, the total purchase commitment over the five year term of the agreements was approximately \$27,462. At June 30, 2016, the tire purchase commitment totaled \$26,376 with \$4,256 committed for 2016 and \$5,530 committed for each of the next four years. See Note 12.

Lease Commitments

The Company is party to various operating leases relating to office facilities and certain other equipment with various expiration dates through 2026. All leasing arrangements contain normal leasing terms without unusual purchase options or escalation clauses. As of June 30, 2016, the aggregate minimum rental commitment under operating leases having initial or remaining non-cancelable lease terms in excess of one year was \$42,973.

Stock Buyback Program

On April 13, 2016, Interpool instituted a stock buyback program (the "Stock Buyback Program") whereby employees who hold vested shares of SCT Chassis, an indirect parent of the Company, pursuant to Management Shareholder Agreements executed prior to January 1, 2016, will be eligible to elect, on an annual basis, to sell up to 25% of such shares to Interpool. Under the Stock Buyback Program, participants will elect annually whether to participate in the Stock Buyback Program and the number of eligible shares they wish to sell. Elections will generally be made on or about April 30 of each year, and the Program will expire in 2019 after all completed share repurchase elections are fulfilled for that year. The fair market value price, at which SCT Chassis shares will be repurchased, will be determined each year by the Board of Directors of SCT Chassis. At June 30, 2016, the estimated repurchase amount based on the current fair market value of \$10.90 per share is \$3,240. See Note 10.

Notes to Consolidated Financial Statements – Unaudited (continued)

For the Three and Six Months Ended June 30, 2016 and 2015

(Dollars in Thousands, Except for Share Amounts)

7. Commitments and Contingencies (continued)

ILWU Roadability Program – Inspection Fees

A recent agreement reached between the Pacific Maritime Association (“PMA”) and the International Longshore and Warehouse Union (“ILWU”) provides for mandatory roadability inspections (subject to limited exceptions) of all chassis before they leave any of the West Coast terminals where the ILWU has jurisdiction (the “ILWU Roadability Program”). In connection with this program, the Company has received invoices and payment demands from certain host locations. The Company is currently disputing such fees because, among other reasons, it believes there is no legal basis for them to be imposed and the ILWU Roadability Program provides for inspections beyond those required by applicable law. Since the Company believes that any amounts it may be required to pay are not probable, it is not currently accruing such expenses in its financial statements. As of June 30, 2016, the Company has received invoices aggregating approximately \$4,000.

8. Income Taxes

The consolidated income tax provision for the three and six months ended June, 30, 2016 and 2015 was determined based upon estimates of the Company’s consolidated forecasted effective income tax rates for the years ended December 31, 2016 and 2015, respectively. For the three months ended June 30, 2016, the Company recorded a tax provision of \$849, reflecting a 39.7% effective tax rate. This compares to a tax provision of \$5,054, reflecting a 39.6% effective tax rate for the three months ended June 30, 2015. For the six months ended June 30, 2016, the Company recorded a tax provision of \$5,483, reflecting a 39.9% effective tax rate. This compares to a tax provision of \$12,434, reflecting a 38.5% effective tax rate for the six months ended June 30, 2015. The Company’s effective tax rate differs from the U.S. federal tax rate of 35% primarily due to Canadian and Mexican tax provisions.

(Dollars in Thousands, Except for Share Amounts)

9. Accumulated Other Comprehensive Loss

Accumulated Other Comprehensive Loss (“AOCI”) includes the changes in the fair value of derivative instruments, reclassification into earnings of amounts previously deferred relating to derivative instruments and foreign currency translation gains and losses primarily relating to the Company’s Canadian operation.

For the six months ended June 30, 2016, the components of AOCI, net of tax, are as follows:

	Unrealized Gain (Loss) on Derivative Instruments	Net Derivative Loss to be Reclassified into Earnings	Foreign Currency Translation	Total Accumulated Other Comprehensive Loss
Balance, December 31, 2015	\$ 198	\$ (16,944)	\$ (1,357)	\$ (18,103)
Current-period other comprehensive (loss) income	(4,299)	5,200	136	1,037
Balance, June 30, 2016	<u>\$ (4,101)</u>	<u>\$ (11,744)</u>	<u>\$ (1,221)</u>	<u>\$ (17,066)</u>

The following table presents the effects of reclassifications out of AOCI and into the Consolidated Statement of Operations for the periods indicated:

	Income Statement Line Item	Three Months Ended June 30, 2016	Six Months Ended June 30, 2016
Total loss in AOCI reclassifications for previously unrealized net losses on terminated derivatives	Interest Expense	\$ 4,165	\$ 8,566
Related income tax benefit	Benefit for income taxes	(1,635)	(3,366)
Net loss reclassified out of AOCI		<u>\$ 2,530</u>	<u>\$ 5,200</u>

	Income Statement Line Item	Three Months Ended June 30, 2015	Six Months Ended June 30, 2015
Total loss in AOCI reclassifications for previously unrealized net losses on terminated derivatives	Interest Expense	\$ 5,110	\$ 10,526
Related income tax benefit	Benefit for income taxes	(2,007)	(4,130)
Net loss reclassified out of AOCI		<u>\$ 3,103</u>	<u>\$ 6,396</u>

10. Share-Based Payment

A summary of the restricted shares of SCT Chassis, Inc. under the Company's share-based compensation plan is as follows. All amounts are in thousands except share and per share amounts.

Non-vested Shares	Shares	Weighted-Average Grant Date Fair Value per share	Fair Value of Shares at Grant Date
Non-vested at January 1, 2016	102,170	\$ 8.79	\$ 898
Granted	35,682	11.21	400
Forfeited	—	—	—
Vested	(52,724)	7.97	(420)
Non-vested at June 30, 2016	<u>85,128</u>	<u>\$ 10.31</u>	<u>\$ 878</u>

New Grants

On June 1, 2016, 35,682 restricted shares of SCT Chassis, Inc. were granted to a key employee at a fair value of \$11.21 per share for a total fair value of \$400. These shares vest in equal increments on January 1, 2017, 2018, 2019 and 2020. Additionally on June 1, 2016, the Company advised the employee that he would be permitted to participate in the Stock Buyback Program (as defined below) instituted by the Company in April 2016. See description of program following.

Stock Buyback Program

On April 13, 2016, Interpool instituted a stock buyback program (the "Stock Buyback Program") whereby employees who hold vested shares of SCT Chassis, an indirect parent of the Company, pursuant to Management Shareholder Agreements executed prior to January 1, 2016, will be eligible to elect, on an annual basis, to sell up to 25% of such shares to Interpool. Under the Stock Buyback Program, participants will elect annually whether to participate in the Stock Buyback Program and the number of eligible shares they wish to sell. Elections will generally be made on or about April 30 of each year, and the Stock Buyback Program will expire in 2019 after all completed share repurchase elections are fulfilled for that year. The fair market value price, at which SCT Chassis shares will be repurchased, will be determined each year by the Board of Directors of SCT Chassis. Interpool offered a purchase price for 2016 of \$11.21 per share, and such offer expired on May 13, 2016.

TRAC Intermodal LLC and Subsidiaries

Notes to Consolidated Financial Statements – Unaudited (continued)

For the Three and Six Months Ended June 30, 2016 and 2015

(Dollars in Thousands, Except for Share Amounts)

10. Share-Based Payment (continued)

The Company accounted for the repurchase feature which provides for a cash settlement option for eligible shares in accordance with the *Compensation – Stock Compensation* Topic of the FASB ASC. Provisions of the Program require certain equity awards to be accounted for under liability accounting; hence such awards have been reclassified and will be re-measured at each reporting date. The Company recognized \$312 of additional compensation expense with regard to these awards due to the Program modification and reclassified \$641 from Member's interest to a Share repurchase liability account. At inception the share repurchase liability was \$953 and is recorded in Accrued expenses and other liabilities in the Consolidated Balance Sheet. Additionally, the guidance in *Accounting Series Release No. 268* ("ASR 268") requires equity awards, which are now redeemable under the Program to be classified as temporary equity on the balance sheet and re-measured to the estimated redemption value at each reporting period. The Company recognized \$744 of additional compensation expense due to the Program modification and reclassified \$1,859 from Member's interest to Redeemable indirect parent shares held by management associated with such awards. Additionally, \$775 was recorded to Redeemable indirect parent shares held by management with the offset to Member's interest to reflect the estimated redemption value for these shares. At inception the balance in this account was \$3,378.

On May 13, 2016, the Company repurchased 94,527 shares for \$1,060 in accordance with the Stock Buyback Program discussed above. Accordingly, the Company reduced Redeemable indirect parent shares held by management by \$845 on the Consolidated Balance Sheet and also reduced the share repurchase liability account by \$215.

At June 30, 2016, the Share repurchase liability was \$777 and is recorded in Accrued expenses and other liabilities in the Consolidated Balance Sheet. Additionally, the balance in Redeemable indirect parent shares held by management was \$2,464 and is presented as temporary equity in the Consolidated Balance Sheet. Both accounts were revalued to fair value and estimated redemption value, respectively, at June 30, 2016.

The Company recorded share-based compensation expense for the three and six months ended June 30, 2016 of \$1,113 and \$1,169, respectively which includes the amounts discussed above. This compares to compensation expense of \$102 and \$349 for the three and six months ended June 30, 2015. Compensation expense is recorded as a component of Selling, general and administrative expense in the Company's Consolidated Statements of Operations and is recognized on a straight-line basis with the compensation expense recognized as of any date being at least equal to the portion of the grant-date fair value that is vested at that date. Total unrecognized compensation expense was approximately \$779 at June 30, 2016, which is expected to be recognized over the remaining weighted-average vesting period of 2.6 years.

10. Share-Based Payment (continued)

Share Repurchases

In addition to the share repurchase discussed above under the Stock Buyback Program, during the six months ended June 30, 2016, Interpool purchased 32,547 shares of SCT Chassis, Inc. common stock from employees to meet their minimum statutory withholding requirements upon share vesting and to repurchase shares from an employee upon termination. The cost of these shares was \$306 and is included in Member's interest in the Consolidated Balance Sheet.

11. Segment and Geographic Information

The Company's principal business is providing marine and domestic chassis on both long and short-term leases or rental agreements to a diversified customer base including the world's leading shipping lines, Class I railroads, major U.S. intermodal transportation companies and motor carriers. The Company provides such services to its customers through two operating and reportable segments, the Marine Market segment and the Domestic Market segment. The reportable segments are based on the chassis markets that are served by the Company.

The Company evaluates current and future projected segment performance and allocates resources to them primarily based upon Adjusted EBITDA. The Company defines Adjusted EBITDA as income (loss) before income taxes, interest expense, depreciation and amortization expense, impairment of assets and leasing equipment, loss on modification and extinguishment of debt and capital lease obligations, other expense (income), interest income, share-based compensation, principal collections on direct finance leases and other non-routine or non-cash items as determined by management. Adjusted EBITDA is not a measure recognized under U.S. GAAP and does not have a standardized meaning prescribed by U.S. GAAP and is therefore unlikely to be comparable to similar measures presented by other companies. Adjusted EBITDA helps management identify controllable expenses and make decisions designed to help the Company meet its current financial goals and optimize its financial performance. Accordingly, the Company believes this metric measures its financial performance based on operational factors that management can impact in the short-term, namely the cost structure and expenses of the organization.

Geographic Information

Primarily all of the Company's revenues and long lived assets are attributable to the United States, the Company's country of domicile.

12. Related Party Transactions

Management, Facility Fees and Chassis Leasing

The Company charges management fees to a subsidiary of Seacastle for expenses incurred and services performed on its behalf. For the three and six months ended June 30, 2016, this resulted in income for the Company of \$22 and \$44, respectively. This compares to \$31 and \$62, respectively, for the three and six months ended June 30, 2015. These amounts are included in Selling, general and administrative expenses on the Consolidated Statements of Operations. The Company had net receivables from affiliates of \$633 and \$584 at June 30, 2016 and December 31, 2015, respectively, which is included in Other assets on the Consolidated Balance Sheets.

TRAC Intermodal LLC and Subsidiaries

Notes to Consolidated Financial Statements – Unaudited (continued)

For the Three and Six Months Ended June 30, 2016 and 2015

(Dollars in Thousands, Except for Share Amounts)

12. Related Party Transactions (continued)

The Company also leases chassis to the Florida East Coast Railway (“FEC”) under term lease and pool arrangements. The parent company to the FEC is Florida East Coast Industries, Inc., which is owned by private equity funds managed by affiliates of Fortress. For the three and six months ended June 30, 2016, the Company recorded chassis leasing revenue from FEC of \$553 and \$1,111, respectively. This compares to chassis leasing revenue of \$564 and \$1,073, respectively, for the three and six months ended June 30, 2015. These amounts are recorded in Equipment leasing revenue on the Consolidated Statements of Operations.

The Company is committed to purchasing 45,000 tires annually for a period of five years from a tire supplier that is co-owned by a member of the senior management team at TRAC Interstar. The total purchase commitment over the five year term of the agreement is \$27,462. At June 30, 2016, the tire purchase commitment totaled \$26,376 with \$4,256 committed for 2016 and \$5,530 committed for each of the next four years. See Note 7.

13. Restructuring Charge

During June 2016, in response to changing market conditions, the Company initiated a reduction in certain staffing levels. In accordance with the *Compensation – Non-Retirement Post-Employment Benefits* Topic of the FASB ASC, the Company recorded a restructuring charge of \$1,404 related to employee severance and termination benefits. This charge is recorded in Restructuring expense in the Consolidated Statements of Operations. At June 30, 2016, the balance in Accrued restructuring is \$1,404 which is included in Accrued expenses and other liabilities on the Consolidated Balance Sheet.

14. Grow New Jersey Tax Credit

On June 10, 2014, the Company was approved to receive a Grow NJ Tax Credit in the amount not to exceed \$9,800 subject to the terms and conditions of the Grow New Jersey Assistance Act, P.L. 2011, c. 149, as amended; the Grow NJ Program regulations, N.J.A.C. 19:31-18.1 et seq. subject to final amendments to the regulations; and the terms and conditions set forth in the Approval Letter and in the Incentive Agreement.

During 2015, the Company satisfied all the terms and conditions necessary to obtain the Grow NJ Tax Credit and in January 2016, the New Jersey Division of Taxation approved and issued the overall tax credit certificate for \$8,800. Since the grant is payable in yearly increments over a ten year period commencing in 2016, the year the first tax credit certificate is issued, the Company received credits amounting to \$880 during the first quarter of 2016. It is anticipated that upon continued compliance with the terms and conditions of the grant, the Company will receive an annual grant of \$880 each year from 2017 to 2025.

Additionally, as provided for in the statutes governing the grant, the Company sold the tax credits it received to a third party. The third party agreed to purchase, over the ten year period, all credits not used by the Company at 92.5% of the face value of the credits. On February 25, 2016, the third party purchased tax credits totaling \$880 and paid the Company \$814. There was also a \$4 transfer fee related to this transaction.

TRAC Intermodal LLC and Subsidiaries

Notes to Consolidated Financial Statements – Unaudited (continued)

For the Three and Six Months Ended June 30, 2016 and 2015

(Dollars in Thousands, Except for Share Amounts)

14. Grow New Jersey Tax Credit (continued)

Based on the above transaction, the Company recognized Grant income of \$120 and \$267 for the three and six months ended June 30, 2016. This is recorded in Selling, general and administrative expenses in the Consolidated Statements of Operations. At June 30, 2016, the amount in deferred income was \$543 which is recorded in Accrued expenses and other liabilities in the Consolidated Balance Sheets.

15. Fair Value of Financial Instruments

The following table sets forth the valuation of the Company's financial assets and liabilities measured at fair value on a recurring basis by the input levels (as defined) at the dates indicated:

	Fair Value as of June 30,	Fair Value Measurement as of June 30, 2016 using Fair Value Hierarchy		
	2016	Level 1	Level 2	Level 3
Asset:				
Cash and cash equivalents	\$ 6,348	\$ 6,348	\$ —	\$ —
Liability:				
Derivative instruments	6,752	—	6,752	—
Share repurchase liability	777	—	—	777
Redeemable indirect parent shares held by management	2,464	—	—	2,464

	Fair Value as of December 31,	Fair Value Measurement as of December 31, 2015 using Fair Value Hierarchy		
	2015	Level 1	Level 2	Level 3
Assets:				
Cash and cash equivalents	\$ 3,161	\$ 3,161	\$ —	\$ —
Derivative instruments	576	—	576	—

Cash and cash equivalents: Cash and cash equivalents include all cash balances and highly liquid investments having original maturities of three months or less at the time of purchase. These instruments are stated at cost, which approximates market value because of the short-term nature of the instruments.

TRAC Intermodal LLC and Subsidiaries

Notes to Consolidated Financial Statements – Unaudited (continued)

For the Three and Six Months Ended June 30, 2016 and 2015

(Dollars in Thousands, Except for Share Amounts)

15. Fair Value of Financial Instruments (continued)

Derivative instruments: The Company's interest rate derivatives were recorded at fair value on the Company's Consolidated Balance Sheets and consist of United States dollar denominated LIBOR-based interest rate swaps. Their fair values were determined using cash flows discounted at relevant market interest rates in effect at the period close. The fair value generally reflected the estimated amounts that the Company would receive or pay to transfer the contracts at the reporting date and therefore reflected the Company's or counterparty's non-performance risk. Additionally, the Company has analyzed each of the redemption features included in the notes to determine whether any of these embedded features should be bifurcated in accordance with the *Derivatives and Hedging* Topic of the FASB ASC (ASC 815). The Company has concluded that the redemption feature which offers optional redemption by the Company of up to 35% of the aggregate principal amount of the notes at a redemption price of 111% of the aggregate principal amount of the notes using the cash proceeds of an equity offering qualifies as a feature that should be bifurcated under ASC 815. The Company has determined that the resulting measurement of the fair value of this embedded derivative is immaterial to the Consolidated Financial Statements, and will continue to reassess the fair value of this derivative prospectively with any changes recorded in earnings.

Share repurchase liability and Redeemable indirect parent shares held by management: The Share repurchase liability account and the Redeemable indirect parent shares held by management were recorded at fair value and estimated redemption value on the Company's Balance Sheet. The fair value and estimated redemption value of these shares at June 30, 2016 was determined to be \$10.90 per share. The value per share was determined by a valuation by the Board of Directors of SCT Chassis. In determining fair market value, the Board of Directors relies on a number of valuation approaches including the market-based approach using current market multiples as well as the income approach utilizing a discounted cash flow analysis.

Leasing equipment that is deemed to be impaired is measured at fair value on a non-recurring basis. The fair value is calculated using the income approach based on inputs classified as Level 2 in the fair value hierarchy.

The Company believes the carrying amounts of cash and cash equivalents, accounts receivable, accounts payable and accrued expenses and other liabilities approximates the fair value of these financial instruments because of their short-term nature.

TRAC Intermodal LLC and Subsidiaries

Notes to Consolidated Financial Statements – Unaudited (continued)

For the Three and Six Months Ended June 30, 2016 and 2015

(Dollars in Thousands, Except for Share Amounts)

15. Fair Value of Financial Instruments (continued)

Debt: The Company's debt consists of fixed and floating rate instruments. Variable interest rate debt was \$483,901 as of June 30, 2016 and \$584,401 as of December 31, 2015. Accordingly, the Company's variable rate debt approximates market value for similar instruments at the respective dates. The Company had fixed rate debt of \$641,316 as of June 30, 2016 and \$496,278 as of December 31, 2015. Fair value was calculated based on inputs classified as Level 2 in the fair value hierarchy.

The carrying amounts and fair values of the Company's financial instruments are as follows:

	June 30, 2016		December 31, 2015	
	Carrying Amount of Asset (Liability)	Fair Value of Asset (Liability)	Carrying Amount of Asset (Liability)	Fair Value of Asset (Liability)
Derivative Instrument	\$ (6,752)	\$ (6,752)	\$ 576	\$ 576
Total debt and capital lease obligations	\$ (1,125,217)	\$ (1,143,321)	\$ (1,080,679)	\$ (1,094,088)

16. Guarantor Financial Information

On August 9, 2012, TRAC Intermodal LLC along with TRAC Intermodal Corp., entered into a purchase agreement pursuant to which it sold \$300,000 aggregate principal amount of the Senior Secured 11% Notes (the "Notes"). Concurrent with the offering of the Notes, the Company entered into a registration rights agreement with investors which required the Company to file a registration statement with the SEC to offer exchange notes with terms substantially identical to the Notes. The exchange offer to exchange the Notes for notes which have been registered under the Securities Act of 1933, as amended (the "Securities Act"), commenced on June 6, 2013, expired on July 5, 2013 and closed on July 10, 2013. Based on information provided by Wells Fargo Bank, N.A., the exchange agent for the exchange offer, as of the expiration date 100% of the Notes were validly tendered for exchange. The Notes are jointly and severally guaranteed unconditionally on a senior secured basis by all of the Company's existing and future wholly-owned domestic subsidiaries, with certain exceptions. All guarantor subsidiaries are 100% owned by the Company. On August 17, 2015, the Issuers redeemed \$150,000 aggregate principal amount of the Notes.

TRAC Intermodal LLC and Subsidiaries

Notes to Consolidated Financial Statements – Unaudited (continued)

For the Three Months Ended March 31, 2016 and 2015

(Dollars in Thousands, Except for Share Amounts)

17. Subsequent Event

On July 15, 2016, the Company and TRAC Intermodal Corp. (collectively, the “Issuers”) delivered to the holders of the Notes a notice of redemption notifying the holders that the Issuers have elected to redeem \$80,000 in aggregate principal amount of the outstanding Notes. The Notes are called for redemption on August 15, 2016 at a redemption price equal to 105.500 percent of the principal amount. Additionally, approximately \$1,206 of deferred financing fees related to these Notes will be expensed upon redemption. The Company intends to fund the redemption amount by borrowing on its ABL Facility.

The Company has evaluated all significant activities through the time of filing these financial statements with the SEC and has concluded that no additional subsequent events have occurred that would require recognition in the Consolidated Financial Statements or disclosure in the notes to the Consolidated Financial Statements.

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of the financial condition and results of operations of the Company should be read in conjunction with the interim Consolidated Financial Statements and the related notes thereto included elsewhere in this Quarterly Report on Form 10-Q. All dollar amounts discussed below are in thousands of U.S. dollars except per share amounts, or unless otherwise stated. The interim financial statements have been prepared in accordance with U.S. GAAP. This discussion and analysis contains forward-looking statements that involve risk, uncertainties and assumptions. Our actual results could differ materially from those anticipated in the "Forward-looking statements" set forth in this Quarterly Report on Form 10-Q as a result of many factors, including those included and discussed in "Forward-looking statements" and "Risk factors" set forth in Part I-Item 1A of our Annual Report on Form 10-K for fiscal year 2015 and elsewhere in this report.

Overview

We believe we are the largest intermodal chassis solutions provider, measured by total assets, for domestic and international transportation companies in North America. Our principal business is providing marine and domestic chassis on both long and short-term leases or rental agreements to a diversified customer base including the world's leading shipping lines, Class I railroads, major U.S. intermodal transportation companies and motor carriers.

Our fleet of equipment consists of marine and domestic chassis. These assets are owned, leased-in or managed by us on behalf of third-party owners in pooling arrangements. As of June 30, 2016, we owned, leased-in or managed a fleet of 307,643 chassis and units available for remanufacture. The net book value of our owned equipment was approximately \$1.43 billion.

We operate our business through two operating segments: the Marine Market segment and the Domestic Market segment.

- Marine Market segment—primarily serving shipping lines and motor carriers with 20', 40' and 45' foot chassis. These chassis are used in the transport of dry or refrigerated marine shipping containers of the same size carrying goods between port terminals and/or railroad ramps and retail or wholesale warehouses or store locations, principally in the United States. We offer customers both long-term leases and short-term leases or rental agreements. As of June 30, 2016, our active fleet included 190,788 marine chassis.
- Domestic Market segment—primarily serving railroads and major U.S. intermodal transportation companies with 53' chassis. These chassis are used in the transport of domestic shipping containers of the same size carrying goods between railroad ramps and retail or wholesale warehouses or store locations, principally in the United States. We offer customers both long-term leases and short-term leases or rental agreements. As of June 30, 2016, our active fleet included 80,669 domestic chassis.

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

As of June 30, 2016, approximately 16%, 1%, and 83% of our on-hire chassis fleet was leased on term leases, direct finance leases or in chassis pools, respectively. As of June 30, 2016, 22% of our on-hire fleet was under existing agreements that provided for total contractual cash flow of \$118.3 million over the remaining life of the contracts assuming no leases are further renewed upon expiration. Our utilization rates are determined by the percentage of our total fleet that is on-hire divided by the total fleet, excluding chassis awaiting the remanufacture process. As of June 30, 2016 and 2015, our utilization rates were 93.4% and 95.9%, respectively.

The table below summarizes our total fleet by type of lease as of June 30, 2016:

	Units		Net book value		Average age (in years)	% of On-hire fleet
	# of units	% of total	\$ in millions	% of total		
Total fleet by lease type						
Term lease	40,048	13	\$ 201.2	14	13.9	16
Direct finance lease	3,550	1	12.3	1	10.7	1
Marine chassis pool	141,886	46	606.1	42	14.8	56
Domestic chassis pool	67,957	22	441.7	31	8.6	27
On-hire fleet	253,441	82	1,261.3	88	13.1	100
Available fleet	18,016	6	74.6	5	15.8	
Active fleet	271,457	88	1,335.9	93	13.2	
Units available for remanufacture	36,186	12	94.1	7		
Total fleet	307,643	100	\$ 1,430.0	100		

Term lease products

Under a term lease, the lessee commits to a fixed lease term, typically between 1 and 5 years. We retain the benefit and residual value of equipment ownership, and bear the risk of re-leasing the asset upon expiration of the lease. For the six months ended June 30, 2016, our term lease renewal rate was approximately 84% with very little movement of assets from term arrangements to pool arrangements during the quarter.

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Direct finance lease products

Direct finance lease terms and conditions are similar to those of our term leases, except that, under a direct finance lease, the customer commits to a fixed lease term and typically receives a bargain purchase option at the expiration of the lease. Under this arrangement, the substantive risks and benefits of equipment ownership are transferred to the lessee. The lease payments are segregated into principal and interest components that are similar to a loan. The interest component, calculated using the effective interest method over the term of the lease, is recognized by us as Finance revenue. The principal component of the lease is reflected as a reduction to the net investment in the direct finance lease. The typical initial term on these leases is between 5 and 10 years, with multiple renewals to extend the lease term by another 1 to 3 years.

Chassis pools

We operate and maintain domestic and marine chassis pools. A neutral chassis pool is similar to a car rental model in which we provide a shared pool of chassis at major intermodal transportation points such as port terminals and railroad ramps for use by multiple customers on an as-needed basis. Additionally, we are a contributor to several cooperative pools. In a cooperative ("co-op") pool model, several chassis owners contribute chassis into a single pool for users. Contributors must contribute a number of chassis proportionate to that of their customer usage. An authorized user of the pool may use any chassis in that pool regardless of the owner/contributor of the chassis. Costs of the pool are charged back to the contributors in one of several allocation bases, either by total number of chassis contributed or by number of chassis actually used. Customers generally enter into pool user agreements for a period of one to three years and may be subject to subscription levels for minimum chassis usage. As of June 30, 2016, 15% of chassis pool revenue was generated by such minimum usage arrangements. Multi-year agreements typically contain annual pricing reset features.

Marine chassis pools

We operate pools and contribute chassis in many of the major port terminals and railroad ramps on the Eastern seaboard, Gulf Coast, Midwest, Pacific Northwest and the Pacific Southwest using marine 20', 40' and 45' chassis. As of June 30, 2016, we owned 129,257 chassis and managed 12,629 chassis owned or leased and contributed by shipping lines for a total of 141,886 chassis engaged in providing this service. The net book value of our owned marine pool units amounted to \$606.1 million as of June 30, 2016. Marine chassis pool customers pay per diem rates and in some cases are subject to subscription levels for minimum chassis usage that are typically one year in length. For the six months ended June 30, 2016, approximately 2% of marine chassis pool revenue was generated under subscription arrangements.

PART I. FINANCIAL INFORMATION

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

Domestic chassis pools

We also operate pools for domestic 53’ chassis at railroad ramps throughout the United States. As of June 30, 2016, we had 67,957 chassis, including 8,089 chassis that we lease-in, engaged in providing this service. The net book value of the domestic pool chassis that we own totaled \$441.7 million, as of June 30, 2016. In 2015, we had exclusive arrangements with five of the seven Class I railroads that carry freight in the United States to provide this service at many of their railroad ramps. However, we have been advised by one of the Class I railroads that they intend to terminate the exclusive nature of their agreement with us at some point in 2016. We are currently in negotiations with this Class I railroad about an alternative non-exclusive agreement with us. With regard to the leasing of these domestic chassis, we have long-term contracts with many of the largest intermodal logistics companies and railroads that operate standard-size domestic intermodal equipment. Large portions of our domestic chassis are leased under these contracts and under similar contracts with other customers and in some cases are subject to subscription levels for minimum chassis usage that are typically three to five years in length. For the six months ended June 30, 2016, approximately 47% of domestic chassis pool revenue was generated under subscription arrangements.

Other revenue

Other revenue is derived from three primary sources: maintenance and repair service revenue, repositioning revenue and management services revenue.

Critical Accounting Policies

There have been no material changes in our critical accounting policies from those disclosed in our 2015 Annual Report on Form 10-K. For discussion of our critical accounting policies, refer to “Management’s Discussion and Analysis of Financial Condition and Results of Operations–Critical Accounting Policies” in Part II, Item 7 of our 2015 Annual Report on Form 10-K.

PART I. FINANCIAL INFORMATION

** Not meaningful

(1) For a reconciliation of Adjusted EBITDA to the most directly comparable U.S. GAAP measures, see "Non-GAAP Measures".

Revenues

Total Company revenue was \$163.7 million for the three months ended June 30, 2016 compared to \$177.6 million for the three months ended June 30, 2015, a decrease of \$13.9 million or 8%.

Equipment leasing revenue was \$152.6 million for the three months ended June 30, 2016 compared to \$169.4 million for the three months ended June 30, 2015, a decrease of \$16.8 million or 10%. This decrease was primarily due to a 7% decrease in average per diem rates, which resulted in a decrease in equipment leasing revenue of \$11.7 million, and a decrease in the average on-hire fleet of approximately 7,900 chassis, or 3%, which led to a decrease in equipment leasing revenue of \$5.1 million.

The overall decrease in average per diem rates was primarily due to lower chassis usage within our marine pools, the impact of which was partially offset by higher per diem rates charged to motor carriers during the quarter and decreases in both the average per diem rates and chassis usage within our domestic pool.

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Finance revenue was \$0.4 million for each of the three months ended June 30, 2016 and 2015. Although finance revenue was \$0.4 million in both comparable periods, this was the result of a net reduction in the average investment in direct finance leases of \$2.3 million, primarily due to normal amortization through principal payments and maturing lease arrangements, partially offset by an increase in the average interest rate for new direct finance lease arrangements.

Other revenue was \$10.7 million for the three months ended June 30, 2016 compared to \$7.8 million for the three months ended June 30, 2015, an increase of \$2.9 million or 37%. This increase was primarily attributable to \$4.6 million of emergency roadside repair billings resulting from the February 29, 2016 acquisition of Interstar, partially offset by a \$0.8 million reduction in billings for the repositioning of equipment, a decrease in repair billings of \$0.7 million and a \$0.1 million decrease in scrap metal proceeds in connection with the disposal of end-of-life chassis.

Marine Market segment

Total Marine Market segment revenue was \$111.6 million for the three months ended June 30, 2016 compared to \$129.9 million for the three months ended June 30, 2015, a decrease of \$18.3 million or 14%.

<u>Key Operating Statistics</u>	<u>Three Months Ended June 30,</u>			
	<u>2016</u>	<u>2015</u>	<u>Variance</u>	<u>% Change</u>
Marine Market segment				
<u>Pool Statistics</u>				
Per Diem Revenue	\$ 99,269	\$ 116,079	\$ (16,810)	(14)
Average Total Fleet	143,507	149,519	(6,012)	(4)
Average Daily Revenue per Chassis	\$ 7.60	\$ 8.53	\$ (0.93)	(11)
<u>Term Lease Statistics</u>				
Per Diem Revenue	\$ 8,775	\$ 9,298	\$ (523)	(6)
Average Total Fleet	29,331	33,668	(4,337)	(13)
Average Daily Revenue per Chassis	\$ 3.29	\$ 3.03	\$ 0.26	9

Per Diem Revenue represents revenues billed under operating leases and excludes amounts billed to lessees for maintenance and repair, positioning and handling, and other ancillary charges.

Average Total Fleet is based upon the total fleet at each month end.

Equipment leasing revenue was \$108.0 million for the three months ended June 30, 2016 compared to \$125.4 million for the three months ended June 30, 2015, a decrease of \$17.4 million or 14%. Marine pool per diem revenues decreased \$16.8 million or 14%. This decrease was primarily due to an 11% decrease in the average per diem rates in our marine pools and a 4% decrease in the average number of chassis in our marine pools. The decrease in average per diem rates was primarily due to lower chassis usage within our marine pools, the impact of which was partially offset by higher per diem rates charged to motor carriers during the quarter. The net reduction in the number of chassis in our marine pools was primarily due to moving chassis into depot and long-term storage locations in reaction to the decline in demand experienced during the quarter, as well as a reduction in leased-in chassis, also as a result of the decline in demand. Marine pool per diem revenues attributable to motor carriers rose to 59% of total marine pool per diem revenue for the three months ended June 30, 2016 from 53% for the three months ended June 30, 2015. Marine term lease revenues decreased \$0.5 million or 6% due to a 13% decrease in the average number of chassis on-hire, partially offset by an 8% increase in the average per diem rates. The decrease in the average number of chassis on hire was primarily due to reduced

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

demand experienced during the current year period.

Finance revenue was \$0.3 million for the three months ended June 30, 2016 compared to \$0.4 million for the three months ended June 30, 2015, a decrease of \$0.1 million. This decrease was primarily the result of a reduction in the average investment in direct finance leases of \$2.2 million, primarily due to normal amortization through principal payments and maturing lease arrangements, partially offset by an increase in the average interest rate for new direct finance lease arrangements.

Other revenue was \$3.2 million for the three months ended June 30, 2016 compared to \$4.2 million for the three months ended June 30, 2015, a decrease of \$1.0 million or 24%. This decrease was primarily attributable to a \$0.7 million reduction in repair billings and a \$0.3 million decrease in billings for the repositioning of equipment.

Domestic Market segment

Total Domestic Market segment revenue was \$45.9 million for the three months ended June 30, 2016 compared to \$46.0 million for the three months ended June 30, 2015, a decrease of \$0.1 million.

Key Operating Statistics	Three Months Ended June 30,			
	2016	2015	Variance	% Change
Domestic Market segment				
<u>Pool Statistics</u>				
Per Diem Revenue	\$ 40,601	\$ 40,085	\$ 516	1
Average Total Fleet	67,819	65,128	2,691	4
Average Daily Revenue per Chassis	\$ 6.58	\$ 6.76	\$ (0.18)	(3)
<u>Term Lease Statistics</u>				
Per Diem Revenue	\$ 3,968	\$ 3,976	\$ (8)	-
Average Total Fleet	12,024	12,263	(239)	(2)
Average Daily Revenue per Chassis	\$ 3.63	\$ 3.56	\$ 0.07	2

Per Diem Revenue represents revenues billed under operating leases and excludes amounts billed to lessees for maintenance and repair, positioning and handling, and other ancillary charges.

Average Total Fleet is based upon the total fleet at each month end.

Equipment leasing revenue was \$44.6 million for the three months ended June 30, 2016 compared to \$44.1 million for the three months ended June 30, 2015, an increase of \$0.5 million or 1%. Domestic pool per diem revenues increased \$0.5 million or 1%. This increase was primarily due to a 4% increase in the average number of chassis in our domestic pools, partially offset by a 3% decrease in the average per diem rates in our domestic pool. Domestic term lease revenues were relatively flat as compared to the prior year period. The average per diem rates increased 2% while the average number of chassis on-hire decreased by 2%.

Other revenue was \$1.3 million for the three months ended June 30, 2016 compared to \$1.9 million for the three months ended June 30, 2015, a decrease of \$0.6 million or 31%. This decrease was primarily attributable to a \$0.3 million reduction in billings for the repositioning of equipment and a \$0.3 million decrease in repair billings.

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Direct operating expenses

Total Company direct operating expenses were \$94.8 million for the three months ended June 30, 2016 compared to \$100.0 million for the three months ended June 30, 2015, a decrease of \$5.2 million or 5%. Maintenance and repair expenses within our Marine and Domestic Market Segments decreased \$6.1 million or 9%, which was primarily due to a lower average cost per repair, as well as a net decrease in the average number of chassis operating in our marine and domestic chassis pools. The decrease in the average cost per repair within the Marine Market segment was primarily due to reduced maintenance and repair spending in response to the reduced demand experienced during the three months ended June 30, 2016 versus the comparable period of 2015, partially offset by a higher frequency of repairs. Maintenance and repair expenses for chassis residing at third party depots and at the Company's service centers decreased \$1.5 million during the three months ended June 30, 2016 versus the comparable period of 2015. Partially offsetting these decreases was \$3.3 million of incremental maintenance and repair expenses resulting from the February 29, 2016 acquisition of Interstar. Additionally, there was an increase in pool operational expense of \$0.9 million, as well as an increase in storage costs of \$0.7 million. The increase in pool operational expense was primarily due to facility rental agreements in the Northeast entered into during the fourth quarter of 2015. Partially offsetting these increases was a reduction in chassis usage fees and repositioning and handling expenses of \$1.6 million and \$1.0 million, respectively. Other direct operating expenses such as insurance costs increased by \$0.1 million.

Marine Market segment

Direct operating expenses for the Marine Market segment were \$70.4 million for the three months ended June 30, 2016 compared to \$77.7 million for the three months ended June 30, 2015, a decrease of \$7.3 million or 9%. Maintenance and repair expenses decreased \$6.5 million or 11%, which was primarily due to a lower average cost per repair and a decrease in the average number of chassis operating in our marine chassis pool. The decrease in the average cost per repair was primarily due to reduced maintenance and repair spending in response to the reduced demand experienced during the three months ended June 30, 2016 versus the comparable period of 2015, partially offset by a higher frequency of repairs. Additionally, there was a reduction in chassis usage fees and repositioning and handling expenses of \$1.6 million and \$0.9 million, respectively. Partially offsetting these decreases was an increase in pool operational expense of \$0.9 million and storage costs of \$0.8 million.

Domestic Market segment

Direct operating expenses for the Domestic Market segment were \$16.2 million for the three months ended June 30, 2016 compared to \$16.0 million for the three months ended June 30, 2015, an increase of \$0.2 million or 1%. Maintenance and repair expenses increased \$0.4 million or 4%, which was primarily due to a 4% increase in the average number of chassis operating in our domestic chassis pool. Partially offsetting this increase was a reduction in repositioning and handling expenses of \$0.3 million. Other direct operating expenses such as storage costs contributed to the remaining increase of \$0.1 million.

Selling, general and administrative expenses

Selling, general and administrative expenses were \$24.1 million for the three months ended June 30, 2016 compared to \$23.0 million for the three months ended June 30, 2015, an increase of \$1.1 million or 5%. This increase was primarily due to incremental employee-related costs resulting from headcount additions in support of operational cost containment initiatives, including in-sourcing depot operations at select locations. Also contributing to this increase were costs associated with our relocation to a new corporate headquarters location in May 2015. These increases were partially offset by the capitalization of compensation and related benefit costs for employees directly associated with the development of Project Helix, as well as a reduction in consulting fees with respect to financial and human resource initiatives.

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Depreciation expense

Depreciation expense was \$18.8 million for the three months ended June 30, 2016 compared to \$17.9 million for the three months ended June 30, 2015, an increase of \$0.9 million or 5%. This increase was primarily due to incremental depreciation expense resulting from chassis acquired and remanufactured since July 1, 2015. The aforementioned chassis acquisitions were related to marine chassis purchased from the shipping lines and the purchase of previously leased-in domestic chassis to support the growth in the domestic pool. Also contributing to the increase in depreciation expense were amortized costs for leasehold improvements, furniture and fixtures and computer equipment acquisitions associated with our new corporate headquarters.

Provision for doubtful accounts

The provision for doubtful accounts was \$0.5 million for the three months ended June 30, 2016 compared to \$0.1 million for the three months ended June 30, 2015, an increase of \$0.4 million. This increase was primarily due to incremental billings to motor carriers, partially offset by an improved collection experience with our motor carriers.

Impairment of leasing equipment

We recorded impairment charges on leasing equipment of \$6.0 million for the three months ended June 30, 2016 compared to \$2.6 million for the three months ended June 30, 2015, an increase of \$3.4 million. This increase was primarily due to a greater number of end-of-life chassis impaired during the three months ended June 30, 2016 versus the comparable period of 2015 and an increase in write-downs associated with axles unsuitable for the remanufacturing program.

Restructuring expense

In June 2016, we recorded a restructuring charge of \$1.4 million related to employee severance and termination benefits. This action was taken in response to changing market conditions.

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Interest expense

Interest expense was \$16.4 million for the three months ended June 30, 2016 compared to \$21.5 million for the three months ended June 30, 2015, a decrease of \$5.1 million or 24%. Cash interest decreased \$3.3 million, while the non-cash interest portion (consisting of deferred financing fees, amortized losses on terminations of derivative instruments and fair value adjustments for derivative instruments) decreased \$1.8 million. The decrease in cash interest expense for the three months ended June 30, 2016 was primarily due to a lower effective interest rate during the current year period resulting from the August 2015 refinancing of \$150.0 million aggregate principal amount of 11% Senior Secured Notes with proceeds drawn under our ABL Facility which had a weighted-average interest rate for the three months ended June 30, 2016 of 2.76%. This decrease was partially offset by higher average debt levels during the three months ended June 30, 2016.

Other income, net

Other income, net for the three months ended June 30, 2016 was \$0.4 million compared to \$0.2 million for the three months ended June 30, 2015, an increase of \$0.2 million.

Provision for income taxes

The effective income tax rates for the three months ended June 30, 2016 and 2015 were 40% and 40%, respectively. In both periods, the effective tax rate was adversely impacted by Canadian and Mexican tax provisions.

Net income

Net income was \$1.3 million for the three months ended June 30, 2016 compared to a net income of \$7.7 million for the three months ended June 30, 2015. The decrease in the net income was attributable to the items noted above.

** Not meaningful

(1) For a reconciliation of Adjusted EBITDA to the most directly comparable U.S. GAAP measures, see "Non-GAAP Measures".

Revenues

Total Company revenue was \$332.0 million for the six months ended June 30, 2016 compared to \$346.4 million for the six months ended June 30, 2015, a decrease of \$14.4 million or 4%.

Equipment leasing revenue was \$313.4 million for the six months ended June 30, 2016 compared to \$330.1 million for the six months ended June 30, 2015, a decrease of \$16.7 million or 5%. This decrease was primarily due to a 4% decrease in average per diem rates, which resulted in a decrease in equipment leasing revenue of \$12.8 million and a decrease in the average on-hire fleet of approximately 4,400 chassis, or 2%, which led to a decrease in equipment leasing revenue of \$5.6 million. These decreases were partially offset by one additional billing day during the six months ended June 30, 2016 which led to an increase in equipment leasing revenue of \$1.7 million.

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The overall decrease in average per diem rates was primarily due to lower chassis usage within our marine pools, the impact of which was partially offset by higher per diem rates charged to motor carriers during the current year period and a decrease in chassis usage within our domestic pool.

Finance revenue was \$0.7 million for the six months ended June 30, 2016 compared to \$0.8 million for the six months ended June 30, 2015, a decrease of \$0.1 million. This decrease was primarily the result of a reduction in the average investment in direct finance leases of \$2.5 million due to normal amortization through principal payments and maturing lease arrangements.

Other revenue was \$17.9 million for the six months ended June 30, 2016 compared to \$15.4 million for the six months ended June 30, 2015, an increase of \$2.5 million or 16%. This increase was primarily attributable to \$6.1 million of emergency roadside repair billings resulting from the February 29, 2016 acquisition of Interstar, partially offset by a \$1.7 million reduction in billings for the repositioning of equipment, a decrease in scrap metal proceeds in connection with the disposal of end-of-life chassis of \$0.9 million and a \$0.9 million decrease in repair billings.

Marine Market segment

Total Marine Market segment revenue was \$230.1 million for the six months ended June 30, 2016 compared to \$252.3 million for the six months ended June 30, 2015, a decrease of \$22.2 million or 9%.

<u>Key Operating Statistics</u>	<u>Six Months Ended June 30,</u>			
	<u>2016</u>	<u>2015</u>	<u>Variance</u>	<u>% Change</u>
Marine Market segment				
<u>Pool Statistics</u>				
Per Diem Revenue	\$ 205,057	\$ 225,436	\$ (20,379)	(9)

Per Diem Revenue	\$ 18,005	\$ 18,465	\$ (460)	(2)
Average Total Fleet	30,161	33,954	(3,793)	(11)
Average Daily Revenue per Chassis	\$ 3.28	\$ 3.00	\$ 0.28	9

Per Diem Revenue represents revenues billed under operating leases and excludes amounts billed to lessees for maintenance and repair, positioning and handling, and other ancillary charges.

Average Total Fleet is based upon the total fleet at each month end.

Equipment leasing revenue was \$223.1 million for the six months ended June 30, 2016 compared to \$243.9 million for the six months ended June 30, 2015, a decrease of \$20.8 million or 9%. Marine pool per diem revenues decreased \$20.4 million or 9%. This decrease was primarily due to an 8% decrease in the average per diem rates in our marine pools and a 2% decrease in the average number of chassis in our marine pools. These decreases were partially offset by one additional billing day during the six months ended June 30, 2016 which led to an increase in equipment leasing revenue of \$1.1 million. The decrease in average per diem rates was primarily due to lower chassis usage within our marine pools, the impact of which was partially offset by higher per diem rates charged to motor carriers during the current year period. The net reduction in the number of chassis in our marine pools was primarily due to moving chassis into depot and long-term storage locations in reaction to the decline in demand experienced during the current year period, as well as a reduction in leased-in chassis, also as a

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

result of the decline in demand. Marine pool per diem revenues attributable to motor carriers rose to 58% of total marine pool per diem revenue for the six months ended June 30, 2016 from 54% for the six months ended June 30, 2015. Marine term lease revenues decreased \$0.5 million or 2% due to an 11% decrease in the average number of chassis on-hire, partially offset by a 9% increase in the average per diem rates. The decrease in the average number of chassis on hire was primarily due to reduced demand experienced during the current year period.

Finance revenue was \$0.7 million for the six months ended June 30, 2016 compared to \$0.8 million for the six months ended June 30, 2015, a decrease of \$0.1 million. This decrease was primarily the result of a reduction in the average investment in direct finance leases of \$2.5 million due to normal amortization through principal payments and maturing lease arrangements.

Other revenue was \$6.4 million for the six months ended June 30, 2016 compared to \$7.7 million for the six months ended June 30, 2015, a decrease of \$1.3 million or 17%. This decrease was primarily attributable to a \$1.0 million reduction in repair billings and a \$0.2 million decrease in billings for the repositioning of equipment.

Domestic Market segment

Total Domestic Market segment revenue was \$93.0 million for the six months ended June 30, 2016 compared to \$90.5 million for the six months ended June 30, 2015, an increase of \$2.5 million or 3%.

<u>Key Operating Statistics</u>	<u>Six Months Ended June 30,</u>			
	<u>2016</u>	<u>2015</u>	<u>Variance</u>	<u>% Change</u>

Average Daily Revenue per Chassis	\$ 6.68	\$ 6.65	\$ 0.03	1
<u>Term Lease Statistics</u>				
Per Diem Revenue	\$ 8,077	\$ 7,922	\$ 155	2
Average Total Fleet	12,298	12,285	13	-
Average Daily Revenue per Chassis	\$ 3.61	\$ 3.56	\$ 0.05	1

Per Diem Revenue represents revenues billed under operating leases and excludes amounts billed to lessees for maintenance and repair, positioning and handling, and other ancillary charges.

Average Total Fleet is based upon the total fleet at each month end.

Equipment leasing revenue was \$90.3 million for the six months ended June 30, 2016 compared to \$86.2 million for the six months ended June 30, 2015, an increase of \$4.1 million or 5%. Domestic pool per diem revenues increased \$3.9 million or 5%. This increase was primarily due to a 4% increase in the average number of chassis in our domestic pools, a 1% increase in the average per diem rates in our domestic pool and one additional billing day during the six months ended June 30, 2016 which led to an increase in equipment leasing revenue of \$0.5 million. Domestic term lease revenues increased \$0.2 million or 2% primarily due to a 1% increase in the average per diem rates.

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Other revenue was \$2.6 million for the six months ended June 30, 2016 compared to \$4.2 million for the six months ended June 30, 2015, a decrease of \$1.6 million or 38%. This decrease was primarily attributable to a \$1.2 million reduction in billings for the repositioning of equipment and a \$0.4 million decrease in repair billings.

Direct operating expenses

Total Company direct operating expenses were \$189.0 million for the six months ended June 30, 2016 compared to \$184.9 million for the six months ended June 30, 2015, an increase of \$4.1 million or 2%. Maintenance and repair expenses increased \$2.2 million or 2%, which was primarily due to \$4.4 million of incremental maintenance and repair expenses resulting from the February 29, 2016 acquisition of Interstar, partially offset by a \$2.2 million decrease in maintenance and repair expenses for chassis residing at third party depots and at the Company's service centers during the six months ended June 30, 2016 versus the comparable period of 2015. Additionally, there was an increase in pool operational expense of \$1.5 million, as well as an increase in repositioning and handling expenses and storage costs of \$1.2 million and \$0.9 million, respectively. The increase in pool operational expense was primarily due to facility rental agreements in the Northeast entered into during the fourth quarter of 2015. Partially offsetting these increases was a reduction in chassis usage fees of \$1.9 million. Other direct operating expenses such as insurance costs increased by \$0.2 million.

Marine Market segment

Direct operating expenses for the Marine Market segment were \$144.6 million for the six months ended June 30, 2016 compared to \$144.0 million for the six months ended June 30, 2015, an increase of \$0.6 million or less than 1%. This increase was primarily due to incremental pool operational expense of \$1.5 million, as well as an increase in storage costs and repositioning and handling expenses of \$1.2 million and \$0.9 million, respectively. The increase in pool operational expense was primarily due to facility rental agreements in the Northeast entered into during the fourth quarter of 2015. Partially offsetting these increases was a reduction in chassis usage fees of \$1.7 million and a reduction in maintenance and repair expenses of \$1.3 million. This reduction in maintenance and repair expenses was primarily due to a 2% decrease in the average number of chassis operating in our marine pools, partially offset by a higher frequency of repairs.

Domestic Market segment

Direct operating expenses for the Domestic Market segment were \$30.3 million for the six months ended June 30, 2016 compared to \$29.1 million for the six months ended June 30, 2015, an increase of \$1.2 million or 4%. Maintenance and repair expenses increased \$1.3 million or 7%, which was primarily due to a higher average cost per repair, as well as a 4% increase in the average number of chassis operating in our domestic chassis pool. This increase was partially offset by a decrease in chassis usage fees of \$0.2 million and a reduction in repositioning and handling expenses of \$0.2 million. Other direct operating expenses such as storage and insurance costs contributed to the remaining increase of \$0.3 million.

Selling, general and administrative expenses

Selling, general and administrative expenses were \$50.5 million for the six months ended June 30, 2016 compared to \$44.3 million for the six months ended June 30, 2015, an increase of \$6.2 million or 14%. This increase was primarily due to incremental employee-related costs resulting from headcount additions in support of operational cost containment initiatives, including in-sourcing depot operations at select locations. Also contributing to this increase were consulting fees in support of information technology initiatives, costs associated with our relocation to a new corporate headquarters location in May 2015 and \$1.4 million of expenses associated with a debt offering process which was terminated during March 2016. These increases were partially offset by the capitalization of compensation and related benefit costs for employees directly associated with the development of Project Helix.

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Depreciation expense

Depreciation expense was \$37.6 million for the six months ended June 30, 2016 compared to \$35.8 million for the six months ended June 30, 2015, an increase of \$1.8 million or 5%. This increase was primarily due to incremental depreciation expense resulting from chassis acquired and remanufactured since July 1, 2015. The aforementioned chassis acquisitions were related to marine chassis purchased from the shipping lines and the purchase of previously leased-in domestic chassis to support the growth in the domestic pool. Also contributing to the increase in depreciation expense were amortized costs for leasehold improvements, furniture and fixtures and computer equipment acquisitions associated with our new corporate headquarters.

(Recovery) provision for doubtful accounts

During the six months ended June 30, 2016, the provision for doubtful accounts decreased by \$2.6 million compared to the prior year period primarily due to an improved collection experience with our motor carriers.

Impairment of leasing equipment

We recorded impairment charges on leasing equipment of \$8.0 million for the six months ended June 30, 2016 compared to \$4.0 million for the six months ended June 30, 2015, an increase of \$4.0 million. This increase was primarily due to a greater number of end-of-life chassis impaired during the six months ended June 30, 2016 versus the comparable period of 2015 and an increase in write-downs associated with axles unsuitable for the remanufacturing program.

Restructuring expense

In June 2016, we recorded a restructuring charge of \$1.4 million related to employee severance and termination benefits. This action was taken in response to changing market conditions.

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Interest expense

Interest expense was \$33.2 million for the six months ended June 30, 2016 compared to \$43.6 million for the six months ended June 30, 2015, a decrease of \$10.4 million or 24%. Cash interest decreased \$7.0 million, while the non-cash interest portion (consisting of deferred financing fees, amortized losses on terminations of derivative instruments and fair value adjustments for derivative instruments) decreased \$3.4 million. The decrease in cash interest expense for the six months ended June 30, 2016 was primarily due to a lower effective interest rate during the current year period resulting from the August 2015 refinancing of \$150.0 million aggregate principal amount of 11% Senior Secured Notes with proceeds drawn under our ABL Facility which had a weighted-average interest rate for the six months ended June 30, 2016 of 2.72% and lower average debt levels.

Other income, net

Other income, net for the six months ended June 30, 2016 was \$0.9 million compared to \$0.8 million for the six months ended June 30, 2015, an increase of \$0.1 million.

Provision for income taxes

The effective income tax rates for the six months ended June 30, 2016 and 2015 were 40% and 38%, respectively. In both periods, the effective tax rate was adversely impacted by Canadian and Mexican tax provisions.

Net income

Net income was \$8.2 million for the six months ended June 30, 2016 compared to a net income of \$19.9 million for the six months ended June 30, 2015. The decrease in the net income was attributable to the items noted above.

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Liquidity and Capital Resources

We have historically met our liquidity requirements primarily from revenues from operating activities from our subsidiaries, asset based lending facilities, leases and second lien borrowings.

Revenues from operating activities include term lease and marine and domestic pool revenues, direct finance lease collections, billings to lessees for maintenance and repairs and billings to lessees for repositioning and management fees. Cash flow provided by operating activities was \$68.8 million and \$85.4 million for the six months ended June 30, 2016 and 2015, respectively.

Amounts outstanding under existing borrowing facilities were \$1.13 billion as of June 30, 2016 and \$1.08 billion as of December 31, 2015. As of June 30, 2016, we had \$918.0 million outstanding under the ABL Facility and excess availability of \$277.3 million. No other amounts are available to draw under other currently available borrowing facilities. Our ability to draw the excess availability could be limited in the future by testing of financial covenants and other ABL Facility limiters depending on the use of drawn funds.

On July 15, 2016, we and TRAC Intermodal Corp. (collectively, the "Issuers") delivered to the holders of the Notes a notice of redemption notifying the holders that the Issuers have elected to redeem \$80.0 million in aggregate principal amount of the outstanding Notes. The Notes are called for redemption on August 15, 2016 at a redemption price equal to 105.500 percent of the principal amount. Additionally, approximately \$1.2 million of deferred financing fees related to these Notes will be expensed upon redemption. We intend to fund the redemption amount by borrowing on our ABL Facility.

Other Considerations

As of June 30, 2016, we had approximately \$47.4 million of scheduled debt amortization over the next 12 month period. These amounts do not include \$40.5 million of interest payments, \$24.2 million of asset and tire purchase commitments and \$11.5 million of operating lease commitments existing as of June 30, 2016 and maturing over the next 12 months. We expect that cash flows from operations and principal collections on direct finance leases will be sufficient to meet our liquidity needs for the next 12 months, funding maturing debt and satisfying our contractual obligations. We believe that we will be able to maintain compliance with any applicable covenants in our indebtedness for the next 12 months. However, we may need to borrow funds to finance the purchases of new and used assets or to remanufacture assets to expand the business. No assurance can be made that we will be able to meet our financing and other liquidity needs as currently contemplated.

On January 14, 2016, we borrowed \$51.0 million (the "Repurchase Amount") under the revolving credit facility of the ABL Facility to finance the repurchase and retirement of 62 shares, par value \$0.01 per share, of the common stock of Interpool, Inc. held by us, the sole stockholder of Interpool, Inc. Through a successive chain of dividends, the Repurchase Amount was received pro rata by our indirect shareholders of record, including certain private equity funds that are managed by an affiliate of Fortress Investment Group LLC, employees of affiliates of Seacastle Inc. (our indirect parent) and members of our management.

Historically, the Company has had the ability to service debt obligations and to obtain additional financing as needed by the business. The majority of our debt is secured by long-lived assets which have proven to be an attractive collateral source for our lenders evidenced by our long history of obtaining capital lease obligations, term-loans and most recently, asset backed lending.

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Liquidity needs for acquisition of new chassis

We expect to invest substantial funds to acquire new and used chassis and remanufacture and refurbish chassis, although there can be no assurances as to the timing and amount of such acquisitions. During 2015, a total of \$75.4 million was invested of which \$33.7 million was used to acquire and refurbish marine chassis and \$41.7 million was used to remanufacture domestic chassis. During the six months ended June 30, 2016, \$48.4 million was invested of which \$31.3 million was used to acquire, refurbish and remanufacture marine chassis and \$17.1 million was used to acquire and remanufacture domestic chassis. We anticipate additional equipment investment during the remainder of 2016; however, deterioration in our performance, the credit markets or our inability to obtain additional financing on attractive terms, or at all, could limit our access to funding or drive the cost of capital higher than the current cost. These factors, as well as numerous other factors could limit our ability to raise funds and further the growth of our business.

Cash flow

Cash was \$6,348 at June 30, 2016 compared to \$3,161 at December 31, 2015, an increase of \$3,187. Cash flow information for the six months ended June 30, 2016 and 2015 are as follows:

(Dollars in thousands)	Six Months Ended June 30,	
	2016	2015
Net cash provided by operating activities	\$ 68,801	\$ 85,364
Net cash used in investing activities	(57,345)	(17,613)
Net cash used in financing activities	(8,336)	(67,944)
Effect of changes in exchange rates on cash and cash equivalents	67	(346)
Net increase (decrease) in cash and cash equivalents	<u>\$ 3,187</u>	<u>\$ (539)</u>

Comparison of the six months ended June 30, 2016 to the six months ended June 30, 2015

Net cash provided by operating activities was \$68.8 million for the six months ended June 30, 2016 compared to \$85.4 million for the six months ended June 30, 2015, a decrease of \$16.6 million. The decrease was primarily the result of decreased profitability of \$20.3 million partially offset by lower cash paid for interest and changes in working capital of \$3.7 million.

Net cash used in investing activities was \$57.3 million for the six months ended June 30, 2016 compared to \$17.6 million for the six months ended June 30, 2015, a \$39.7 million increase in cash out-flows. The increase was primarily driven by a \$30.2 million increase in capital spending, business acquisition of \$4.8 million and a \$4.2 million decrease in proceeds from the sales of leasing equipment in the first half of 2016 compared to 2015.

Net cash used in financing activities was \$8.3 million for the six months ended June 30, 2016 compared to \$67.9 million for the six months ended June 30, 2015, a \$59.6 million increase in cash in-flows. The decrease in cash used for the first half of 2016 was primarily attributable to higher net borrowings of \$112.3 million partially offset by the net dividend payment of \$51.1 million and a \$1.4 million increase in share repurchases from employees.

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Contractual obligations and commitments

The following table summarizes our various contractual obligations in order of their maturity dates as of June 30, 2016.

(Dollars in thousands)	Total as of June 30, 2016	Maturity in years					
		Less than 1 Year	2 Years	3 Years	4 Years	5 Years	Thereafter
ABL Facility	\$ 918,000	\$ 3,000	\$ —	\$ —	\$ —	\$ 915,000	\$ —
Senior Secured 11% Notes	150,000	—	—	—	150,000	—	—
Loan payable to CIMC	13,270	2,589	2,720	2,858	3,002	2,101	—
Capital lease obligations	43,947	41,817	501	501	501	501	126
Lease asset purchase commitments	35,254	19,947	9,720	5,587	—	—	—
Tire purchase commitments	26,376	4,256	5,530	5,530	5,530	5,530	—
Interest payments	161,510	40,491	39,493	39,331	30,912	11,281	2
Operating leases	42,973	11,501	6,689	4,169	3,372	3,435	13,807
Total	<u>\$ 1,391,330</u>	<u>\$ 123,601</u>	<u>\$ 64,653</u>	<u>\$ 57,976</u>	<u>\$ 193,317</u>	<u>\$ 937,848</u>	<u>\$ 13,935</u>

Our contractual obligations consist of principal and interest payments related to the ABL Facility, the Notes, chassis purchase commitments and operating lease payments for our chassis and office facilities. Interest payments are based upon the net effect of swapping our variable interest rate payments for fixed rate payments.

Covenants

Under the indenture governing the Notes, the ABL Facility and our other debt instruments, we are required to maintain certain financial covenants (as defined in each agreement) including a minimum tangible net worth test, a funded debt to tangible net worth test and a fixed charge coverage test. As of June 30, 2016, we were in compliance with all covenants under the indenture, the ABL Facility and other agreements. We believe that we will be able to continue to maintain compliance with all applicable covenants for the next 12 months.

Commitments

Chassis purchase commitments

Our chassis purchase commitments are related to commitments to refurbish and remanufacture chassis. We do not bear the risks and rewards of ownership until delivery and therefore do not record an asset or a liability related to these commitments. At June 30, 2016, we had commitments totaling approximately \$35.2 million with commitments totaling \$19.9 million, \$9.7 million and \$5.6 million for 2016, 2017 and 2018, respectively.

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Tire purchase commitments

Contemporaneous with the Interstar acquisition, we committed to purchase from an affiliate of the acquired company 45,000 tires annually for a period of five years. Initial prices for tire types were agreed upon but are subject to purchase price adjustments based on certain changes in the cost of raw materials used in the manufacturing process. Based on the initial pricing and an estimate of the types of tires to be purchased, the total purchase commitment over the five year term of the agreements was approximately \$27.5 million. At June 30, 2016, the tire purchase commitment totaled \$26.4 million with \$4.3 million committed for 2016 and \$5.5 million committed for each of the next four years.

Operating lease commitments

We are a party to various operating leases relating to office facilities and certain other equipment with various expiration dates through 2026. Minimum rental commitments under our material leases were \$43.0 million as of June 30, 2016.

Off-balance sheet arrangements

In the ordinary course of business, we execute contracts involving indemnifications standard in the industry and indemnifications specific to a transaction, such as an assignment and assumption agreement. These indemnifications might include claims related to tax matters, governmental regulations, and contractual relationships, among others. Performance under these indemnities would generally be triggered by a breach of terms of the contract or by a third-party claim. One of the principal types of indemnification for which payment is possible is taxes. The other principal type of indemnity we may agree to is one in favor of certain lenders and chassis pool hosts indemnifying them against certain claims relating to the operation of our chassis, although this type of indemnity generally is covered by insurance or an indemnity in our favor from a third-party, such as a lessee or a vendor. We regularly evaluate the probability of having to incur costs associated with these indemnifications and have concluded that none are probable. We do not believe such arrangements have or are reasonably likely to have a current or future material effect on our financial condition, revenues and expenses, results of operations, liquidity, capital expenditures or capital resources.

Pursuant to our tax-related indemnifications, the indemnified party is typically protected from certain events that result in a tax treatment different from that originally anticipated. Our liability is typically fixed when a final determination of the indemnified party's tax liability is made. In some cases, a payment under a tax indemnification may be offset in whole or in part by refunds from the applicable governmental taxing authority. We are party to various tax indemnifications and many of these indemnities do not limit potential payment; therefore, we are unable to estimate a maximum amount of potential future payments that could result from claims made under these indemnities.

Operating leases are part of our off-balance sheet arrangements. For more information on our liability under operating leases, see “—Commitments—Operating lease commitments”.

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Emerging Growth Company

Section 107 of the JOBS Act provides that an “emerging growth company” can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for complying with new or revised accounting standards after April 5, 2012. However, we are choosing to “opt out” of such extended transition period and as a result, we will comply with the new or revised accounting standards on the relevant dates on which adoption of such standards is required for non-emerging growth companies. Our decision to opt out of the extended transition period for complying with new or revised accounting standards is irrevocable.

Non-GAAP Measures

Adjusted EBITDA

Adjusted EBITDA is a measure of both operating performance and liquidity that is not defined by U.S. GAAP and should not be considered a substitute for net income, income from operations or cash flow from operations, as determined in accordance with U.S. GAAP.

We define Adjusted EBITDA as income (loss) before provision (benefit) for income taxes, interest expense, depreciation and amortization expense, impairment of assets and leasing equipment, loss on modification and extinguishment of debt and capital lease obligations, other expense (income), interest income, share-based compensation, principal collections on direct finance leases and other non-routine or non-cash items as determined by management.

Set forth below is additional detail as to how we use Adjusted EBITDA as a measure of both operating performance and liquidity, as well as reconciliations of Adjusted EBITDA to our U.S. GAAP net income and cash flow from operating activities.

Operating performance: Management and our board of directors use Adjusted EBITDA in a number of ways to assess our consolidated financial and operating performance, and we believe this measure is helpful to management, the board of directors and investors in identifying trends in our performance. We use Adjusted EBITDA as a measure of our consolidated operating performance exclusive of income and expenses that relate to financing, income taxes, and capitalization of the business. Also, Adjusted EBITDA assists us in comparing our operating performance on a consistent basis as it removes the impact of our capital structure (primarily interest charges on our outstanding debt) and asset base (primarily depreciation and amortization) from our operating results. In addition, Adjusted EBITDA helps management identify controllable expenses and make decisions designed to help us meet our current financial goals and optimize our financial performance. Accordingly, we believe this metric measures our financial performance based on operational factors that management can impact in the short-term, namely the cost structure and expenses of the organization.

Liquidity: In addition to the uses described above, management and our board of directors use Adjusted EBITDA as an indicator of the amount of cash flow we have available to service our debt obligations, and we believe this measure can serve the same purpose for our investors. We include principal collections on direct finance lease receivables in Adjusted EBITDA because these collections represent cash that we have available to service our debt obligations that is not otherwise included in net income. As a result, by adding back share-based compensation expenses and by including principal collections on direct finance lease receivables in Adjusted EBITDA, we believe Adjusted EBITDA is a more accurate indicator of our available cash flow to service our debt obligations than net income.

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following table shows the reconciliation of net income (loss), the most directly comparable U.S. GAAP measure, to Adjusted EBITDA:

(dollars in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2016	2015	2016	2015
Net income	\$ 1,287	\$ 7,711	\$ 8,245	\$ 19,872
Income tax provision	849	5,054	5,483	12,434
Interest expense	16,388	21,506	33,218	43,603
Depreciation expense	18,764	17,914	37,610	35,815

Adjusted EBITDA	\$ 45,804	\$ 55,420	\$ 97,089	\$ 117,348

PART I. FINANCIAL INFORMATION

Item 3. Quantitative and Qualitative Disclosures about Market Risk

There has been no material change to quantitative and qualitative disclosures about market risk from those disclosed in our 2015 Annual Report on Form 10-K.

Item 4. Disclosure Controls and Procedures

(a) Disclosure Controls and Procedures.

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of June 30, 2016. Based on such evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of June 30, 2016, the Company's disclosure controls and procedures were effective to ensure that information required to be disclosed in reports that it files or submits under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

(b) Changes in Internal Control Over Financial Reporting.

There have not been any changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

From time to time, we are involved in litigation relating to claims arising out of the normal course of business. As of the date hereof, the Company is involved in no litigation that the Company believes will have a material adverse effect on its consolidated financial condition, results of operation, or liquidity.

Item 1A. Risk Factors

In addition to the information set forth in this Form 10-Q, you should carefully consider the information set forth in Part I, Item 1A, “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2015. As of the date of this Form 10-Q, there have been no significant changes from the risk factors previously disclosed therein, other than the information set forth in this Item 1A.

Our business may be adversely affected if we are forced to pay fees and other charges related to services performed at the host locations at which we operate our chassis pools.

We are often responsible for the systematic inspection, repair and maintenance of the chassis in our chassis pool fleet. As the number of chassis in our chassis pools increases and our fleet ages, we may experience an increase in inspection, maintenance and repair costs. These costs may also increase if additional requirements to pay fees and costs related to inspections, repair and maintenance are imposed on us. A recent agreement reached between the Pacific Maritime Association (“PMA”) and the International Longshore and Warehouse Union (“ILWU”) provides for mandatory roadability inspections (subject to limited exceptions) of all chassis before they leave any of the West Coast terminals where the ILWU has jurisdiction (the “ILWU Roadability Program”). We have recently received invoices and payment demands from some host locations related to the ILWU Roadability Program. As of June 30, 2016, we have received invoices aggregating approximately \$4.0 million. Such host locations have asked us to pay an inspection fee for each chassis that leaves such location.

We are currently disputing such fees because, among other reasons, we believe there is no legal basis for them to be imposed and the ILWU Roadability Program provides for inspections beyond those required by applicable law. Since we believe that any amounts we may be required to pay are not probable, we are not currently accruing any expenses for these fees. However, if we are unsuccessful in challenging these fees, the fees we may be required to pay may be material. Moreover, if we are unsuccessful in challenging these fees and we are unable to pass them on to our customers or we lose access to certain host locations because of our refusal to pay them, our business and results of operations could be negatively impacted.

In addition, marine terminal operators on the West Coast are seeking an amendment to that certain Marine Terminal Schedule No. 1 to the West Coast Marine Terminal Operator Agreement (“WCMTOA”) that would apply a new \$5 fee to chassis owned or leased by chassis leasing companies, such as us, each time such chassis enter or leave a terminal at the ports of Los Angeles and Long Beach. We are currently in discussion with the WCMTOA members over such fees; however, if we are ultimately required to pay them, they may be material. Moreover, if we are required to pay these fees and we are unable to pass them on to our customers or we lose access to certain host locations because of our refusal to pay them, our business and results of operations could be negatively impacted.
